

Little Beaver's Stream

NRO2013

Item no. NRO2013-1021	
General Product Information	
Dimensions LxWxH	498x453x281 cm
Age group	1+
Play capacity (users)	16
Colour options	 

The Little Beaver's Stream is an activity-packed, ground-level accessible play unit that offers a richness of home-themed play to excite toddlers. With its density of activities and many tactile features, The Little Beaver's Stream greatly increases play value and support for the retention and the emerging dramatic play in toddlers. This has been proven through various KOMPAN Play Institute studies of these pieces. The scale of the Little Beaver's Stream is perfectly shaped for toddlers. The desk adds to the overall playability and gives a quieter meeting point at the access stairway. The

steering wheel and desk with rollers invite dramatic play and have high attraction as they can be shifted and touched, stimulating language development and logical thinking skills. The curved bridge stimulates the sense of balance and space, as toddlers feel high up and need to balance the curved floor. The bridge additionally inspires numerous games of being above, below, over, and under, which again informs a spatial awareness that builds the fundament for mathematical skills: higher than and lower than. The lovely slide is looped greatly with the transfer platform, allowing for

easy assistance for less mobile users. The transparency of the Little Beaver's Stream works wonders for the overall communication and cooperation with friends across and from inside to outside, supporting turn-taking and cooperation skills. Dramatic play supports language skills, and this unit welcomes the first try-outs of dramatic play with its many details and fun corners. It is an intriguing structure for toddler play, bound to attract toddlers again and again.

All organic Robinia products by KOMPAN are made of Robinia wood which is sourced from sustainable plantation farms. On request it can be supplied as FSC® Certified (FSC® C004450).

The product/activities are preassembled from the factory to ensure all safety requirements are considered.

The paint used for coloured components is water-based, which is environmentally friendly and has excellent UV resistance. The paint is compliant with Australian Standards.

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco-friendly material, which is not only recyclable after use but also consists of a core produced from 100% recycled material.

There are multiple footing options for all products: Surface anchoring with steel footings and expansion bolts, or wood in-ground or steel in-ground footings.

Robinia products are available in three different wood treatment options; untreated Robinia wood or brown painted with a pigment that maintains the wood colour and coloured version with paint of selected components.

Item no. NRO2013-1021

Installation Information

Max. fall height	100 cm
Safety surfacing area	42.8 m²
Total installation time	29.6 hours
Excavation volume	2.29 m³
Concrete volume	0.00 m³
Footing depth (standard)	100 cm
Shipment weight	1,589 kg
Anchoring options	In-ground ✓ Surface ✓

Warranty Information

EcoCore HDPE	Lifetime
Galvanised Steel	Lifetime
Robinia Wood	15 years
Spare Parts Guarantee	10 years
Stainless Steel Components	Lifetime
