

Toddler Spica

M191

Item no. M19101-3517P	
General Product Information	
Dimensions LxWxH	46x46x97 cm
Age group	1+
Play capacity (users)	1
Color options	

The Toddler Spica with its cute floral theme appeals hugely to infants and toddlers. The response to movement of the Toddler Spica attracts children again and again. The rotation is a delightful and even thrilling play activity. Children can use the Spica while seated or standing. In both cases that trains the vestibular system, the senses of space and

balance. These are important to toddlers in particular, as they support the confidence in moving generally. Confidence in movement helps the child in other aspects of development, for instance in socialization: being able to keep up with the others. In concentration skills: being able to focus on other things than keeping your balance. With

room for more than one child, the Spica supports cooperative play and social play, that will help children to make friends.

Toddler Spica

M191

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of material produced from +95% recycled post consumer material from food packing waste.

The steel surfaces are hot dip galvanised inside and outside with lead free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

The Toddler Spica bearings are installed in a one-piece design bearing house with integrated drain holes for water passage. The two large steel bearings are fully closed and lifetime lubricated.

Item no. M19101-3517P

Installation Information

Max. fall height	60 cm
Safety surfacing area	9.3 m ²
Total installation time	1.8
Excavation volume	0.30 m ³
Concrete volume	0.21 m ³
Footing depth (standard)	70 cm
Shipment weight	32 kg
Anchoring options	In-ground ✓ Surface ✓

Sustainability Data

M191

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
M19101-3517P	69.60	2.45	47.90

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Themed play systems

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Themed play systems" represented by item no.: MSC641100-3717P.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
