#### Parameters:

Construction consists of a large core and a small optional core. Cores are made of straight and bended hot deep galvanized steel tubes Ø48.3 mm x 3.2 mm. The horizontal floor is made of HPL 18 mm and the curved floor of rubber coated LDPE plates. On each facade, one out of a range of different activities can be mounted; a straight module plastic slide, a straight steel slide, a curly climber or a fireman's pole. A small core can be added. The large and the small core are linked together with a crossing climbing net.
