

Balance Net

NRO831

Item no. NRO831-1001

General Product Information

Dimensions LxWxH	288x125x100 cm
Age group	4+
Play capacity (users)	3
Color options	 

The Balance Net is a social attraction in the playground. The Balance Net offers a welcome break from all of the energetic play in the playground. It is a popular point to retract to, for meeting and exchanging. This appeals to older and younger children alike. The Balance Net allows for different body positions: lying, seated, standing, crawling. When crawling

along the net, children train important motor skills such as cross-coordination, which is important to cross-modal perception. This again is necessary to learn to read. Thanks to the slightly moving net, the child will have to adjust body movements constantly. This stimulates the proprioception and sense of balance, fundamental skills in the child's ability

to navigate the world confidently and securely.

Data is subject to change without prior notice.

Balance Net

NRO831

Horizontal net

Physical: cross coordination is developed when climbing over and sense of space when looking down. **Social-Emotional:** space for socializing and bouncy breaks.

Balance Net

NRO831

All Organic Robinia products by KOMPAN are made of Robinia wood from sustainable European sources. On request it can be supplied as FSC® Certified (FSC® C004450).

Nets and ropes are made of UV-stabilised PA with inner steel cable reinforcement. The rope is induction treated in order to create a strong connection between steel and rope which leads to good wear resistance.

The Robinia wood can be supplied as untreated raw wood or painted with a brown coloured transparent pigment that maintains the golden wood colour of the wood.

Item no. NRO831-1001

Installation Information

Max. fall height	61 cm
Safety surfacing area	23.0 m ²
Total installation time	4.4
Excavation volume	0.50 m ³
Concrete volume	0.30 m ³
Footing depth (standard)	100 cm
Shipment weight	193 kg
Anchoring options	In-ground ✓

Sustainability Data

NRO831

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
NRO831-1001	69.07	0.46	3.56

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025

Verified by:

Julie Marie Vejsgaard Larsen, LCA & EPD Consultant

Verification based on report: Validation of CO₂ calculation of 9 categories of Kompan product line, version 1.0, prepared by: Bureau Veritas HSE, Denmark: Julie M. V. Larsen.
