Blimey! The Intrepid awakens the play pirate in any child, with the variety of activities offering endless fun for everyone. A number of play stations sit below deck to stimulate dramatic play, and the hammocks and bow window behind the keel offer a great place to socialise and develop balance. The deck can be boarded in various, playful ways such as rope

ladders and an accessible stairway. On deck, exits in the form of slides and fireman's poles stimulate excitement and thrill, and train children's sense of balance and space as they learn to navigate the world securely. The many lookouts and tactile details of The Intrepid ensure hours of play for children of all ages in an immersive world on the seven seas.

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco-friendly material, which is not only recyclable after use but also consists of a core produced from 100% recycled material.

Main posts with hot-dip galvanised steel footing are available in different materials including; pressure impregnated pinewood posts, pre-galvanised posts that are powder-coated or a lead-free aluminium option with an anodised colour top finish.

All decks are supported by unique designed low-carbon aluminum profiles with multiple attachment options. The grey colored molded decks are made of 75% post-consumer waste PP material with a non-skid pattern and texture surface.

The slides can be chosen in different materials and colours. Options include straight, or curved moulded PE slides in yellow or grey colour or a full stainless steel option which is a more vandalism proof solutions.

Nets and ropes are made of UV-stabilised PA with inner steel cable reinforcement. The rope is induction treated to create a strong connection between steel and rope, which leads to durable weather resistance.

KOMPAN Play Systems can be customised to meet individual client needs and site considerations. Visit the products [www.KOMPAN.com.au](http://www.KOMPAN.com.au) to view our panels, decks, post, slides, and other play activities options which are all durable solutions for any outdoor environment.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
