

Double Zipline, Flat Space, 82ft Long

NRO883

Item no. NRO883-1001	
General Product Information	
Dimensions LxWxH	111'5"x18'8"x13'0"
Age group	5 - 12
Play capacity (users)	2
Color options	 

The Double Zipline is the ultimate social daredevil attraction. It will support social play again and again, with children racing each other to the end, comparing their speed as they go over and over again. The reason for this solid holding power lies mainly in the immense thrill of gliding through the air. The feeling of weightlessness and swooshing through the air

trains spatial awareness as well as the child's understanding of gravity, space and speed. This is necessary for other skills such as managing street traffic safely. Social skills are developed as children diligently pass the seat to the next user in line. The running and pulling involved in this trains the child's cardio as well as upper body muscles. All in all, the large

cableway is an asset of play that unites generations and abilities as there is some way for almost everyone to use it.

Double Zipline, Flat Space, 82ft Long

NRO883

PUR covered rope

Physical: firm grip when spinning and hanging from arms. Arm muscles developed when holding tight.

Long line

Physical: the lengthy glide through the air adds to the thrill and trains spatial awareness, trunk stability and upper-body muscles. All this helps support the child's physical self esteem, making e.g. positive risk taking easier.

Dino seat

Physical: the three divisions and chains of the seat provide efficient handholds for both standing and seated swinging. **Social-Emotional:** the possibility of children swinging together, legs hanging down, trains cooperation, sequencing and turn-taking when swinging.

Double zipline

Social-Emotional: the possibility to glide with a companion or have friendly competitions supports turn taking and cooperation skills. **Cognitive:** the speed may differ between the two Ziplines. Figuring out the reason behind this (weight, speed, force etc.) trains logical thinking.

Double Zipline, Flat Space, 82ft Long

NRO883

All Organic Robinia products by KOMPAN are made of Robinia wood from sustainable European sources. On request it can be supplied as FSC® Certified (FSC® C004450).

The steel surfaces are hot-dip galvanized inside and outside with lead-free zinc. The galvanization has excellent corrosion resistance in outside environments and requires minimal maintenance.

The special designed seat is made of a stainless-steel insert covered with a soft layer of PUR rubber. The seat is impact tested to fulfill all global playground standards and the rope has an ergonomic handhold of a 100cm long molded on PUR rubber handle.

Item no. NRO883-1001	
Installation Information	
Max. fall height	6'11"
Safety surfacing area	2691ft²
Total installation time	20.8
Excavation volume	12.39yd³
Concrete volume	5.27yd³
Footing depth (standard)	3'3"
Shipment weight	1977lbs
Anchoring options	In-ground ✓
Warranty Information	
Cable	10 Years
Movable parts	2 Years
PUR components	10 Years
Robinia Wood	10 Years
Spare Parts Availability	10 Years

The high-quality steel cable with a diameter of 12mm is designed for heavy usage of the cableway for many years. The starting point is indicated by a knob. At the stop point there is special designed spring device ensuring a softer stop of the puller.

The steel cable 3 is tensioned by a special designed device. By turning the handle 1 the steel cable can be tensioned according to instruction in a safe way. After tensioning the cable is locked by three clamps 2. The tensioning device can also be used for adjustment during annual inspections.

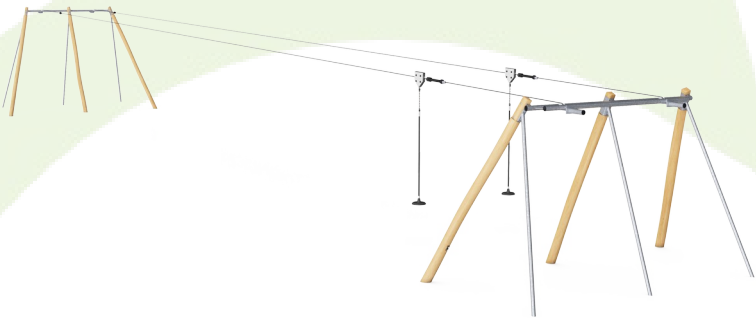

KOMPAN cableways are available for flat or natural sloped surroundings and for surface or in-ground installation. Further the cableways can be supplied with one or two cables for children to ride together in friendly competition.

Sustainability Data

NRO883

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
NRO883-1001	1,117.74	1.33	24.41

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
