Color options	

With its colorful seats and inviting, shape, the Multispinner Carousel calls out loud for social spinning fun. The variety of play possibilities and positions make for hours of play. The spaciousness of the carousel allows for many users, in, on or around the piece. The users spin and rotate, standing or seated. They push and pull the multispinner into motion. They

discover that they can put the piece into motion when seated: coordinating their movements, like when swinging. The spinning trains the sense of balance. The pushing and pulling while running trains muscle strength and cardio. The play capacity encourages social interaction and turn-taking. Figuring out how to put the into motion seated together trains

logical thinking and cooperation. All in all heavy-duty play for many children, for a long time.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
