This lovely sand desk invites hours of explorative play with its sand wheel, sand scoop and little sand holders in the counter. All of these items, with their varied textures and functionalities provide great tactile stimulation for the little toddlers. They also learn about cause and effect, and learn social skills when using the bench to play with others. The sand

desk is also made of beautiful hand-crafted Robinia timber, which children can touch and feel and learn what natural timber is like.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
