ELE400063

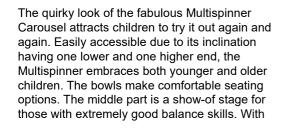

Item no. ELE400063-3717

General Product Information

Dimensions LxWxH 176x176x77 cm
Age group 3+
Play capacity (users) 7
Colour options

great cooperation skills, the Multispinner can be spun from seated position, having children coordinate their swinging movements, leaning forwards and backwards in an agreed rhythm. Thus the Multispinner, apart from being great fun, trains cooperation and team work. The spinning movement is a great training of the vestibular system, the sense of balance in particular. The sense of balance is fundamental to for instance the ability to sit still on a chair, concentrating. In other words, the Multispinner is great play with a purpose.

ELE400063

Differently colored bowls Social-Emotional: encourages children to negotiate which color seat they want, turntaking. Cognitive: supports rules understanding and rules games: children will find reasons for choosing the one or the other color.

Tilted position rotation

Physical: coordination and balance are supported when spinning. Leg, core and arms are trained when pushing and pulling. When jumping off, bone density is strengthened.

Social-Emotional: cooperation, consideration and turn-taking. Wide span of user ages and abilities. Cognitive: logical thinking, figuring out how to make rotation when seated, speeding up or slowing down the spin.

Spacious platform

Physical: allows for more body positions: sitting, lying, standing, which facilitates use for children with physical disabilities. Social-Emotional: facilitates many children using the Tipi Carousel simultaneously, supporting cooperation and turn-taking.

The GreenLine Multispinner base and bowl in teal color are designed with molded PP parts which consist of 33% recycled post-consumer ocean waste. Ocean waste is collected from the maritime industry, such as fishing nets, ropes and trawls

The bowls are made of recyclable PE made from 33% post consumer materials. The bowls are molded in one piece with integrated metal thread bushings and water drain hole to ensure high durability in all climates around the world.

Heavy duty engineered bearing system with single row deep groove ball bearings with rubber seals. The fully closed bearing construction is lifetime lubricated and maintenance free.

Warranty Information Bearing construction 5 years Hardware 10 years Hollow PE parts 10 years Hot dip galvanised steel Lifetime Spare parts guaranteed 10 years

The steel surfaces are hot dip galvanised inside and outside with lead free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

The Multispinner Carousel is offered in three different color combinations. Two with a grey base and a third GreenLine version in a dark teal color.

GreenLine versions in teal color are designed with molded PE parts which consist of 33% recycled post-consumer ocean waste. Ocean waste is collected from the maritime industry, such as fishing nets, ropes and trawls.

Sustainability Data

ELE400063

C.F. Tietgens Boulevard 32C DK-5220 Odense SØ Denmark

Verification of CO₂ calculation of: Freestanding play equipment

Data version no. 2023-10-05

The CO_2 calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Freestanding play equipment" represented by item no.: $\mathrm{GXY916012\text{-}3417}$.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025 Verified by:

Julie Marie Vejsgaard Larsen, LCA & EPD Consultant

Verification based on report: Validation of CO_2 calculation of 9 categories of Kompan product line, version 1.0, prepared by: Bureau Veritas HSE, Denmark: Julie M. V. Larsen.

Publication date: 30. October 2023

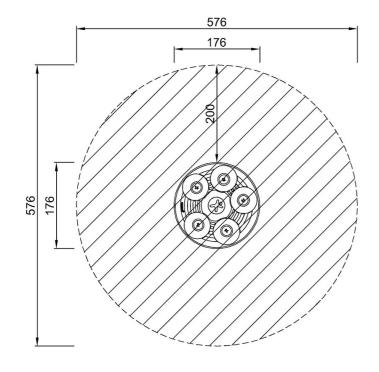

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
