

Multi Deck Play Tower with Monkey Bar & Desk

NRO1024

Item no. NRO1024-1021	
General Product Information	
Dimensions LxWxH	604x548x417 cm
Age group	5 - 12
Play capacity (users)	14
Colour options	  

The Multi Deck Play Tower with Monkey Bar is a richly varied play motivator for children. The targeted selection of popular play activities stimulates children to play for a long time, again and again. The accessible stairway, or the climbing wall deck, leads to the platform and a thrilling slide ride back to ground level. Apart from being great fun, sliding trains the

senses of balance and space, which are very important for navigating through spaces confidently and securely, and for judging distances. The fast access via the accessible stairway provides a loop, running up and sliding down, which is great cardio training. The monkey bar trains coordination and upper body muscles and, like sliding, encourages turn-

taking skills in children, building social-emotional awareness. At ground level a desk invites even more socializing.

Multi Deck Play Tower with Monkey Bar & Desk

NRO1024

Slide

Physical: sliding develops spatial awareness and a sense of balance. Furthermore, the core muscles are trained when sitting upright going down. **Social-Emotional:** empathy stimulated by turn-taking.

Accessible stairway

Physical: climbing the accessible stairway is for all and supports cross coordination as well as arm and leg muscles. For young children, walking stairs and alternating feet is developed. **Social-Emotional:** room for active breaks and adult helpers. An inclusive space.

Monkey bar

Physical: the upper body muscles that are under-challenged due to sedentary lifestyles are developed immensely. So does the coordination and trunk stability. This type of training is preventive for backaches and cross coordination supports cooperation between the left and right brain halves, necessary for other skills such as reading.

Rock climber

Physical: supports cross coordination and leg, arm and hand strength. The hand-holds on top ease entry into platform. **Social-Emotional:** the inclination makes climbing feel secure, especially for younger children.

Desk

Social-Emotional: great meeting place and space creator for storing or sitting.

Multi Deck Play Tower with Monkey Bar & Desk

NRO1024

All Organic Robinia products by KOMPAN are made of Robinia wood from sustainable European sources. On request it can be supplied as FSC® Certified (FSC® C004450).

The paint used for coloured components is water based environmentally friendly with excellent UV resistance. The paint is in compliance with EN 71 Part 3.

The product/activities are preassembled from the factory to ensure all safety requirements are considered.

Item no. NRO1024-1021	
Installation Information	
Max. fall height	252 cm
Safety surfacing area	56.1 m²
Total installation time	33.0
Excavation volume	1.63 m³
Concrete volume	0.24 m³
Footing depth (standard)	100 cm
Shipment weight	1,547 kg
Anchoring options	In-ground ✓
Warranty Information	
Robinia wood	15 years
Spare parts guaranteed	10 years
Stainless steel components	Lifetime
Stainless steel components	Lifetime

Overhead climbing handles are made of high quality stainless steel. The handles are attached to the upper robinia crossbeam by stainless steel hardware.

The hardware is made of stainless steel or galvanised steel to ensure durable connections with a high corrosion resistance.

The Robinia products are designed with a KOMPAN colour concept with a number of different standard colours. The wood can also be supplied as untreated or with brown painted with a pigment that maintains the wood colour.

Sustainability Data

NRO1024

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
NRO1024-1021	528.45	0.43	5.47

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
