5 - 12

The quirky look of the fabulous Multispinner Carousel attracts children to try it out again and again. Easily accessible due to its inclination having one lower and one higher end, the Multispinner embraces both younger and older children. The bowls make comfortable seating options. The middle part is a show-of stage for those with extremely good balance skills. With

great cooperation skills, the Multispinner can be spun from seated position, having children coordinate their swinging movements, leaning forwards and backwards in an agreed rhythm. Thus the Multispinner, apart from being great fun, trains cooperation and team work. The spinning movement is a great training of the vestibular system, the sense of balance in particular. The sense of balance is fundamental to for instance the ability to sit still on a chair, concentrating. In other words, the Multispinner is great play with a purpose.

ELE400063

Differently colored bowls Social-Emotional: encourages children to negotiate which color seat they want, turntaking. Cognitive: supports understanding rules and rules games: children will find reasons for choosing one or the other color.

Physical: allows for more body positions: sitting, lying, standing, which facilitates use for children with physical disabilities. Social-Emotional: facilitates many children using the Tipi Carousel simultaneously, supporting cooperation and turn-taking.

Tilted position rotation

Physical: coordination and balance are supported when spinning. The leg, core and arms are trained when pushing, pulling or when coordinating the Multispinner into motion. When jumping on and off, bone density is strengthened. Bone density for life is mainly built up in the early years. Social-Emotional: cooperation, consideration and turn-taking. Wide span of user ages and abilities. Cognitive: logical thinking, figuring out how to make rotation when seated, speeding up or slowing down the spin.

The GreenLine Multispinner base and bowl in dark teal color are designed with molded PP parts, consisting of 25% recycled post consumer waste and 75% virgin material. The GreenLine option guarantees the lowest possible CO2e emission factor.

The bowls are made of recyclable PE. The bowls are molded in one piece with integrated metal thread bushings and water drain hole to ensure high durability in all climates around the world.

Heavy duty engineered bearing system with single row deep groove ball bearings with rubber seals. The fully closed bearing construction is lifetime lubricated and maintenance free.

l	Item no. ELE400063-3717				
	Installation Information				
l	Max. fall height		2'6"		
l	Safety surfacing area	4	45ft²		
l	Total installation time		5.3		
l	Excavation volume	0.5	8yd³		
l	Concrete volume	0.4	l1yd³		
l	Footing depth (standard)		3'3"		
l	Shipment weight	40)9lbs		
l	Anchoring options	Surface	~		
l		In-ground	~		
l	Warranty Information				
I	Bearing construction	5 \	/ears		

The steel surfaces are hot-dip galvanized inside and outside with lead-free zinc. The galvanization has excellent corrosion resistance in outside environments and requires minimal maintenance.

The Multispinner carousel is available in three different color combinations. Two with a gray base and a third GreenLine version in a dark teal color.

GreenLine versions in a dark teal color are designed with molded PP parts which consist of 25% recycled post-consumer waste and 75% virgin material. GreenLine ensures the lowest possible CO2e emission factor.

Verification of CO₂ calculation of: Freestanding play equipment

Data version no. 2023-10-05

The CO_2 calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Freestanding play equipment" represented by item no.: $\mathrm{GXY916012\text{-}3417}$.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025 Verified by:

Julie Marie Vejsgaard Larsen, LCA & EPD Consultant

Verification based on report: Validation of CO_2 calculation of 9 categories of Kompan product line, version 1.0, prepared by: Bureau Veritas HSE, Denmark: Julie M. V. Larsen.

Publication date: 30. October 2023

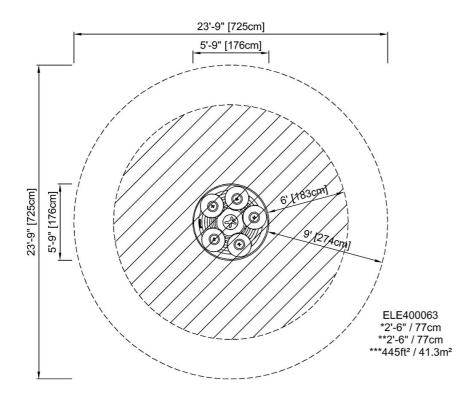

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
