

Double Hill Climber Rope

NRO891

The fun of fundamentals make children play again and again: the Hill Climber invites and supports grappelling up steep hills. The wonderful combination of stemming the feet onto the hill, holding tight to the rope and leaning back, walking upwards is a repeatedly thrilling experience. Apart from being great fun, the combination of movement also provides

great gross motor and muscle training. Hands, arms and upper body get trained when gripping the perfectly sized rope, legs get trained walking upwards, and core muscles are put to work when leaning back, tensioning the core. The motor skill training is intense: the spatial awareness, the sense of balance and the coordination come to full use. This stimulates

the overall motor confidence of the child and helps train the ability to e.g. judge distances – important in street traffic.

Item no. NRO891-1001

General Product Information

Dimensions LxWxH	259x207x139 cm
Age group	2 - 12
Play capacity (users)	2
Colour options	

Double Hill Climber Rope

NRO891

Hill climber rope

Physical: trains cross coordination, balance and muscle strength. Cross coordination also stimulates cross-modal perception, necessary for skills such as reading. **Social-Emotional:** children cooperate when rappelling together.

Double Hill Climber Rope

NRO891

Ropes of UV-stabilized PES rope strands with inner steel cable reinforcement. The polyester yarn is made from +95% post-consumer materials and is inductively melted onto each strand. The ropes are highly wear-and vandalism-resistant and can be replaced at site if needed.

All Organic Robinia products by KOMPAN are made of Robinia wood from sustainable European sources. On request it can be supplied as FSC® Certified (FSC® C004450).

Through KOMPAN Variant Team, you can choose between additional 7 rope colours and customize your solution. The assortment is a wide span of colours ranking from elegant and expressive black or natural and toned-down hemp colour, to a range of attractive and eye-catching signal colours.

Hill climber ropes are ideal embankment play products, usable on slopes of 20-60° and available in various lengths.

Item no. NRO891-1001	
Installation Information	
Max. fall height	0 cm
Safety surfacing area	0.0 m²
Total installation time	2.1
Excavation volume	1.31 m³
Concrete volume	0.66 m³
Footing depth (standard)	100 cm
Shipment weight	44 kg
Anchoring options	In-ground ✓
Warranty Information	
Chains	10 years
Corocord rope	10 years
Robinia wood	15 years
Spare parts guaranteed	10 years

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
NRO891-1001	31.02	0.91	9.13

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
