WOW! The Double Mega Deck offers many levels of play: the curved ladder up to the lower platform from which the child can take the stomach-tickling slide down to the ground or enjoy the sensation of the fireman's pole or bannister bars back to the ground. An alternative route is to venture onto the upper deck through the climbing net, supporting

physical strength and cross-body coordination. The roomy top deck is perfect for groups to socialise and invites bravehearts to a stomach-tickling experience down either the curved or long tube slide. Under the platform children can crawl through the tunnel, training cross-body coordination or enjoy a rocking experience in the hammock. The timer and tic-tac-toe panel

make a great meeting point where children can develop social-emotional skills while collaborating and taking turns.

Jacob's ladder

Physical: cross coordination and spatial awareness as well as upper body muscles when hanging with arms. This is especially important due to sedentary lifestyles of today's children. **Social-Emotional:** turn-taking and cooperation. **Cognitive:** logical thinking when going from 2nd to 3rd step, changing feet.

Tic-tac-toe panel

Social-Emotional: stimulates communication and turn-taking skills. **Cognitive:** support rules understanding, strategic thinking. **Creative:** leaving marks when tumblers are left in new positions.

Banister bars

Physical: coordination is supported when going down, as well as arm and core muscles. Landing strengthens bone density, which is built for life in childhood. **Social-Emotional:** turn-taking and risk-taking.

Tunnel

Physical: the children crawl through the tunnel, developing motor skills such as cross-body coordination and proprioception. **Social-Emotional:** turn-taking when passing each other.

Accessible stairway

Physical: climbing the accessible stairway is for all and supports cross coordination as well as arm and leg muscles. For young children, walking stairs and alternating feet is developed. **Social-Emotional:** room for active breaks and adult helpers. An inclusive space.

Hammock

Physical: coordination and sense of balance when swaying. **Social-Emotional:** meeting, pushing friends gently back and forth, turn-taking.

Long tube slide

Physical: sliding develops spatial awareness and the sense of balance. **Social-Emotional:** the height ensures extra speed and thrill. Empathy stimulated by turn-taking and consideration of others. Feeling of security when stopping on extra long slide mouth.
