

# Large Octa Net & add-ons

COR10280

Item no. COR102801-1101	
General Product Information	
Dimensions LxWxH	1543x1288x600 cm
Age group	5+
Play capacity (users)	75
Colour options	       

The Large Octa Net makes children go wow with awe. It motivates play and revisits with its multitude of dense, bouncy climbing fun. The bouncy route to the top is a great challenge and gives users a strong sense of achievement when they reach the top of the mast and enjoy the view of the entire area. Climbing in the net trains all major muscle

groups and motor skills such as cross coordination and balance, which are crucial for children's concentration skills, too. When the children need a break, they can socialize on the membranes, training turn-taking skills and negotiation. The slide is a fun egress from the nets. The loop up the coconut rope or rope ladder through the net, down the slide, is a loop

that will attract again and again, for a long time.

COR10280

## Highest rungs

**Physical:** spatial awareness is supported, arm muscles when holding tight. **Social-Emotional:** children develop courage, self-confidence, consideration and turn-taking, all important life skills.

## Mast

**Physical:** the slightly swaying mast stimulates children's muscles and motor skills when they hold tight climbing the net. **Social-Emotional:** children develop courage and self-regulation when climbing up high. This positively affects self-confidence.

## Bouncy net meshes

**Physical:** agility, balance and coordination as well as spatial awareness are supported when bouncing, climbing and sitting in the net. Children use muscle strength of arms, legs and core, and build bone density when jumping down. **Social-Emotional:** the bouncing, swaying net appeals to empathy and cooperation. **Cognitive:** physical memory, logical thinking, concentration.

## Slide

**Physical:** sliding develops spatial awareness and a sense of balance. Furthermore, the core muscles are trained when sitting upright going down. **Social-Emotional:** empathy stimulated by turn-taking.

## Big meshes

**Physical:** the big meshes allow for climbing and crawling, supporting proprioception, cross coordination and spatial awareness. Climbing here takes muscle strength, pushing and pulling arms to get upwards. **Social-Emotional:** allow more children being seated together, sharing.

## Waggly bridge

**Physical:** sense of balance and training of cross coordination. Important for other skills such as being able to sit still. **Social-Emotional:** turn-taking and helping others when climbing up.

## Transparency

**Social-Emotional:** the transparency makes possible cooperation and communication throughout, all important life-skills for children to learn.

COR10280

Item no. COR102801-1101	
<b>Installation Information</b>	
Max. fall height	240 cm
Safety surfacing area	179.5 m²
Total installation time	38.9 hours
Excavation volume	41.73 m³
Concrete volume	26.50 m³
Footing depth (standard)	110 cm
Shipment weight	1,945 kg
Anchoring options	In-ground ✓
<b>Warranty Information</b>	
Corocord rope	10 years
Membrane	2 years
S-Clamps	10 years
Spare parts guaranteed	10 years
Steel post HDG	Lifetime

# Sustainability Data

COR10280

Cradle to Gate A1-A3	Total CO <sub>2</sub> emission	CO <sub>2</sub> e/kg	Recycled materials
	kg CO <sub>2</sub> e	kg CO <sub>2</sub> e/kg	%
COR102801-1101	4,914.84	3.13	52.68

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

### Verification of CO<sub>2</sub> calculation of: Corocord

Data version no. 2023-10-05

The CO<sub>2</sub> calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Corocord" represented by item no.: COR314011-1101.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025  
Verified by:

Julie Marie Vejsgaard Larsen, LCA & EPD Consultant

Verification based on report: Validation of CO<sub>2</sub> calculation of 9 categories of Kompan product line, version 1.0, prepared by: Bureau Veritas HSE, Denmark: Julie M. V. Larsen.
