Scrambler

M130

Item no. M13070-01P	
General Product Information	
Dimensions LxWxH	1'2"x2'11"x2'9"
Age group	2 - 5
Play capacity (users)	2
Color options	

The Scrambler has created joyful play experiences for generations. Its timeless design attracts children again and again and the rocking sensation makes them stay. Apart from the joy in rocking, the responsive movement also develops children's understanding of cause and effect: that actions have an effect on the world. Rocking on the Scrambler trains the child's sense of balance and space as well as hand and arm muscles when holding tight and pushing your feet hard into the foot support. All of these basic motor skills and muscle training actions help train the child's bodily cognition, supporting important life skills such as being able to sit still on a chair or navigate traffic securely. The long seat of the Scrambler even allows two children to ride together, stimulating cooperation and fostering the first friendships.

Scrambler

M130

Handhold
Physical: the vertical handgrips ensure a firm grip at different heights, necessary for rocking intensely. This trains hand and arm muscles.

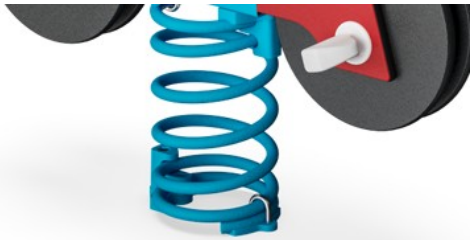
Theme
Cognitive: suggests a theme and supports dramatic play, which stimulates language and communication skills.

Foot support
Physical: a good footrest supports intense rocking. Rocking stimulates the senses of balance and space that are fundamental in managing the world securely. Intense rocking also develops coordination and muscle strength.

Rocking spring
Physical: response to movement increases spatial awareness and sense of balance. These are fundamental motor skills that help the child's ability to sit still on a chair which takes a good sense of balance. **Cognitive:** trains the understanding of cause and effect: when I move my body, the spring responds with movement.

Scrambler

M130

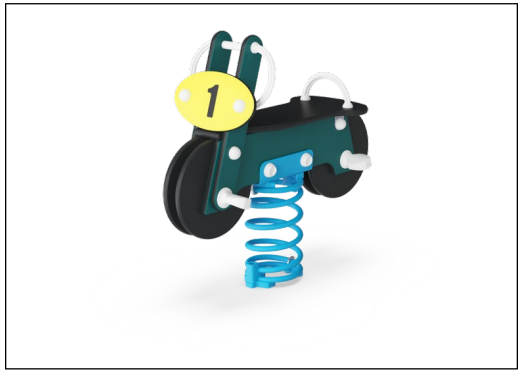


Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of a core produced from 100% recycled material.

KOMPAN Springs are made of high quality spring steel according to EN10270. The springs are cleaned by phosphating before they are painted with an epoxy primer and a polyester powder coating as top finish. The springs are fixed by unique anti pinch fittings for maximum safety and long lifetime.

The springs are fixed by unique anti pinch fittings for maximum safety and long lifetime.

Item no. M13070-01P		
Installation Information		
Max. fall height		1'9"
Safety surfacing area		166ft²
Total installation time		2.9
Excavation volume		0.25yd³
Concrete volume		0yd³
Footing depth (standard)		1'6"
Shipment weight		84lbs
Anchoring options	In-ground	✔
	Surface	✔
Warranty Information		
EcoCore HDPE		Lifetime
Hot dip galvanized steel		Lifetime
Spare Parts Availability		10 Years
Springs		5 Years



Rock wall handholds are made of pressure molded high quality nylon (PA6). PA6 has good wearing and impact strength.

KOMPAN GreenLine versions are designed with the most environmentally friendly materials with the lowest possible CO2e emission factor such as EcoCoreTM panels of 100% post-consumer recycled ocean waste.

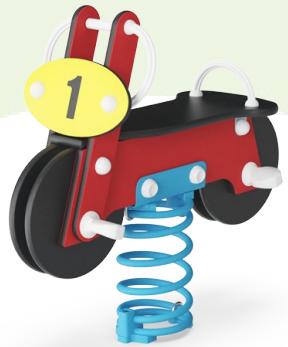
Sustainability Data

M130



Cradle to Gate A1-A3	Total CO_2 emission	CO_2e/kg	Recycled materials
	kg CO_2e	kg CO_2e/kg	%
M13070-01P	74.47	2.04	61.62

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

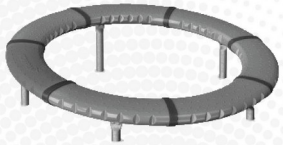
Validation of CO_2 calculation method
BUREAU VERITAS
HSE Denmark A/S

Verification of CO_2 calculation of: Freestanding play equipment



Data version no. 2023-10-05

The CO_2 calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Freestanding play equipment" represented by item no.: GXY916012-3417.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
