PCE50321

Item no. PCE50321-0603	
<b>General Product Information</b>	
Dimensions LxWxH	5'10"x5'9"x9'11"
Age group	2 - 5
Play capacity (users)	6
Color options	

The Trader, with its fine enclosed play space, is an opportunity for quieter play. The panels support sand play, and the sand-transporting funnels stimulate the child's understanding of object permanence: although you can't see something, like sand in a pipe, the sand is still there. The sand scoop panel adds activities for fine motor skills, but also trains logical thinking.

When positioned correctly sand can be shifted from one scoop to the next. The fun climb panel invites shifting things through holes, but also adds a low climb-and-crawl over activity, creating two spaces: the inside and outside. The three sides have different heights, generating varied points for social interaction. The Trader can be used by many children, on

the inside as well as outside.

PCE50321

## Desk

**Social-Emotional:** fine meeting place and a space creator. Sharing and cooperation from both sides create a social scenario that supports communication and cooperation.

## Wall climber

**Physical:** crawling up supports cross coordination and trains major muscle groups.

## Funnel

**Social-Emotional:** trains cooperation and turn-taking as children put materials into the funnel. **Cognitive:** the passing of materials through funnels supports the children's logical thinking and for younger children the understanding of object permanence: that materials don't vanish but run through at the other end.

## Changeable sand funnel

**Social-Emotional:** supports cooperation and turn-taking as children pour water or materials into the funnel. **Cognitive:** the passing of materials through funnels develops children's logical thinking, for younger children the understanding of object permanence: that materials do not vanish, but run through. **Creative:** the sand funnel can be turned, creating new directions of dispensing materials.

## Sand scoops panel

**Physical:** hand eye coordination and push-pull movements. **Social-Emotional:** invites cooperation with two sides and provides for parallel play. **Cognitive:** logical thinking: cause and effect understanding when running scoops in grooves or shifting materials from scoop to scoop. **Creative:** shifting scoops, creating new scoop positions.

The Curved ELEMENTS panels are molded of UV stabilized recyclable PE with multiple options for in-built play features that also ensures a strong panel solution. Straight panels are made of KOMPAN 19mm PE EcoCore™ which is a highly durable, eco-friendly and recyclable material.

ELEMENTS decks are made of 17.8mm thick HPL supported by a unique designed aluminum frame with multiple attachment options by usage of aluminum connectors. The main posts are made of high quality pre-galvanized steel with powder coated top finish. Post tops are closed with caps of UV stabilised nylon (PA6).

The ELEMENTS roofs are made of recyclable PE made from 33% post consumer recycled materials with a minimum wall thickness of 5 mm to ensure high durability in all climates around the world. The steel pipes are hot dip galvanized inside and outside for maximum durability.

ELEMENTS products are available in three different color combinations: classic blue & green, blossom orange & yellow, nature lime and green.

Item no. PCE50321-0603	
Installation Information	
Max. fall height	0'0"
Safety surfacing area	0ft <sup>2</sup>
Total installation time	7.5
Excavation volume	0.12yd <sup>3</sup>
Concrete volume	0.05yd <sup>3</sup>
Footing depth (standard)	2'0"
Shipment weight	350lbs
Anchoring options	Surface ✓ In-ground ✓
Warranty Information	
Curved Panels	10 Years
EcoCore HDPE	Lifetime
Hot dip galvanized steel	Lifetime
Post	10 Years
Spare Parts Availability	10 Years

Elevated activities 0	Accessible elevated activities	Accessible ground level activities	Accessible ground level play types
Present	0	3	2
Required	0	3	2

**ASTM  
F1487**  
compliant

# Sustainability Data

PCE50321

Cradle to Gate A1-A3	Total CO <sub>2</sub> emission	CO <sub>2</sub> e/kg	Recycled materials
	kg CO <sub>2</sub> e	kg CO <sub>2</sub> e/kg	%
<b>PCE50321-0603</b>	328.55	2.54	46.75

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

## Verification of CO<sub>2</sub> calculation of: Play systems

Data version no. 2023-10-05

The CO<sub>2</sub> calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Play systems" represented by item no.: PCM200321-0950.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

**Date: 30. October 2023 | Valid until: 30. October 2025**

**Verified by:**

Julie Marie Vejsgaard Larsen, LCA & EPD Consultant

Verification based on report: Validation of CO<sub>2</sub> calculation of 9 categories of Kompan product line, version 1.0, prepared by: Bureau Veritas HSE, Denmark: Julie M. V. Larsen.
