The push-up bars are specifically designed for upper body training. The chest and arms can be trained through exercises such as rows or dips. If you do not mind getting dirty you can 'belly crawl' underneath the bars. Otherwise, a single hurdle can also be used for exercises on the spot such as push-ups and high jumps. The Push-up Bars have a clear instruction sign

showing the basic exercise and a QR code. By clicking on the QR code users can connect to the KOMPAN fitness App, where they will find multiple exercises and workouts at every level. The Robinia bars are made from de-barked and sap-free Robinia trunks in various dimensions. Robinia is a native European wood species with high strength and natural

durability in various climatic conditions. KOMPAN uses wood from FSC-certified sources.

Push Up Bars Robinia

FRO209

All organic Robinia products by KOMPAN are made of Robinia wood which is sourced from sustainable plantation farms. On request it can be supplied as FSC® Certified (FSC® C004450).

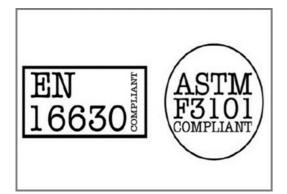

The Robinia wood can be supplied as untreated raw wood or painted with a brown coloured transparent pigment that maintains the golden wood colour of the wood.

The FSW 209 features three 38 x 2mm push up bars at three heights of respectively 38cm, 58cm and 133cm.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
