

Boogie Spinner™

ELE400068

The whimsical shape and great fun of the Boogie Spinner attracts children again and again. The novel movements, a tilting effect in combination with rotation, evoke the children's sense of wonder and are stomach-tickling fun. Responsive to the children's movements, it spins when pushed and pulled, training arms and leg muscles. When holding tight to the

handle children train their core muscles and arm muscles. The rotating movement trains the sense of space and balance, which is fundamental for all other motor skills and motor control. The Boogie Spinner's roomy platform encourages social interaction with fun negotiation, turn-taking, and cooperation. The Boogie Spinner facilitates thrilling play and

social play.

Item no. ELE400068-3217RE	
General Product Information	
Dimensions LxWxH	123x124x129 cm
Age group	6+
Play capacity (users)	4
Colour options	    

Boogie Spinner™

ELE400068

Curved platform

Physical: trains the sense of balance and space as well as the children's upper and lower body muscle strength and bone density when they hold tight or jump on and off.

Social-Emotional: the horizontal surface allows for more children playing and sharing, training cooperation and negotiation skills as well as building up self-confidence and empathy.

Handhold

Physical: opens more hold positions and ensures good grip, necessary for rocking intensely which trains hand and arm muscles.

Tilting

Physical: coordination and balance are supported when spinning. Leg, core and arms are trained when pushing, pulling or coordinating the Boogie Spinner into motion. When jumping on and off, bone density is strengthened. Bone density for life is mainly built up during childhood. **Social-Emotional:** cooperation, consideration and turn-taking. **Cognitive:** logical thinking, figuring out how to make rotation, speeding up or slowing down the spin.

Boogie Spinner™

ELE400068

The Boogie Spinner is mounted with a double bearing meaning that it can move from side to side while spinning, creating an extra challenge. To ensure safety, the Spinner is equipped with a 360-degree metal handle on top, as well as a non-slip standing surface.

Kompan has designed the Boogie Spinner with a soft, shock absorbent 360-degree bumper with non-slip surface which makes the Spinner safe and extremely user friendly.

The central part of the Boogie Spinner is made of recyclable polyethylene (PE) made from 33% post-consumer materials and is rotomoulded in one piece with integrated metal thread bushings and water drain holes to ensure high durability in all climates around the world.

Item no. ELE400068-3217RE

Installation Information

Max. fall height	100 cm
Safety surfacing area	25.0 m²
Total installation time	2.3 hours
Excavation volume	0.44 m³
Concrete volume	0.24 m³
Footing depth (standard)	90 cm
Shipment weight	227 kg
Anchoring options	In-ground ✓ Surface ✓

Warranty Information

Hollow PE parts	10 years
Galvanised Steel	Lifetime
Movable Parts	2 years
Spare Parts Guarantee	10 years

The steel surfaces are hot-dip galvanised inside and outside with lead-free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

Heavy-duty engineered bearing system with single row deep groove ball bearings with rubber seals. The fully closed bearing has lifetime lubricated and maintenance free.

The Boogie Spinner will be available in five different Kompan colours which are Red, Green, Blue, Beige and Teal.

Sustainability Data

ELE400068

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
ELE400068-3217RE	296.58	3.09	35.69

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Freestanding play equipment

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Freestanding play equipment" represented by item no.: GXY916012-3417.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
