

Double Tower with Double Slide

NRO2007

Item no. NRO2007-1021	
General Product Information	
Dimensions LxWxH	21'11" x 19'5" x 9'9"
Age group	2 - 5
Play capacity (users)	18
Color options	

The Double Tower with Double Slide is a truly inclusive play unit that attracts all children again and again. Thanks to its rich choice of wilder and milder play activities, there is something for everyone. The accessible stairway leads to the double slide which provides space for caregivers or two sliding. The loop between the slide mouth and the

entrance eases access for all. Further up the stairway is a nice platform view and a higher slide back to ground level. Apart from being great fun, sliding trains the senses of balance and space, which are very important for judging distances and managing the world confidently. The stair access provides a loop, running up and sliding down, which is great cardio training.

On ground level a nice desk and lovely hammock under the deck invites sharing and socializing.

Double Tower with Double Slide

NRO2007

Desk

Social-Emotional: great meeting place and space creator for storing or sitting.

Double slide

Physical: sliding develops spatial awareness and a sense of balance. Furthermore, the core muscles are trained when sitting upright going down. **Social-Emotional:** invites socializing, supports parent-child and peer-to-peer play. **Cognitive:** young children train their understanding of space, speed and distances when sliding down quickly.

Climbing net

Physical: the inclined net supports the upward climbing movement of the body. The net supports cross-body coordination, which impacts coordination of the right and left part of brain, fundamental for other skills such as the ability to read. The asymmetry of the net challenges the children's climbing.

Hammock

Physical: coordination and sense of balance when swaying. **Social-Emotional:** meeting, pushing friends gently back and forth, turn-taking. **Cognitive:** for toddlers cause and effect understanding.

Somersault bar

Physical: develop balance and core when hanging from knees. Arm, leg and core muscles are developed when climbing up, somersaulting around. Balance and spatial awareness are strengthened. **Social-Emotional:** meeting, socializing and turn-taking when climbing up and down via bar.

Accessible stairway

Physical: climbing the accessible stairway is for all and supports cross coordination as well as arm and leg muscles. For young children, walking stairs and alternating feet is developed. **Social-Emotional:** room for active breaks and adult helpers. An inclusive space.

Double Tower with Double Slide

NRO2007

All Organic Robinia products by KOMPAN are made of Robinia wood from sustainable European sources. On request it can be supplied as FSC® Certified (FSC® C004450).

The paint used for coloured components is water based environmentally friendly with excellent UV resistance. The paint is in compliance with EN 71 Part 3.

The stainless-steel slides with one-piece slide bed are made of high-quality stainless-steel AISI 304.

Item no. NRO2007-1021	
Installation Information	
Max. fall height	4'10"
Safety surfacing area	698ft ²
Total installation time	38.1
Excavation volume	3.05yd ³
Concrete volume	0.17yd ³
Footing depth (standard)	3'3"
Shipment weight	3275lbs
Anchoring options	In-ground ✓ Surface ✓
Warranty Information	
Robinia Wood	10 Years
Ropes & nets	10 Years
Spare Parts Availability	10 Years
Stainless steel components	Lifetime
Stainless steel components	Lifetime

Ropes are made of UV-stabilized PES rope strands with inner steel cable reinforcement. The polyester wrapping is inductively melted onto each strand to ensure excellent wear and tear resistance.

The hardware is made of stainless steel or galvanized steel to ensure durable connections with a high corrosion resistance.

The Robinia products are designed with a KOMPAN color concept with a number of different standard colors. The wood can also be supplied as untreated or with brown painted with a pigment that maintains the wood color.

Sustainability Data

NRO2007

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
NRO2007-1021	629.28	0.47	6.20

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
