NRO549

The stunning XL Pirate ship with accessible stairway attracts children from afar. The density of varied, fun play and climb opportunities on ground level as well as elevated level is aweinspiring. The different climbing options, great gathering points and views and fun slides make for a magnet for children's play, again and again. The routes to the decks vary. The rear

one has an accessible stairway and watchpoints on deck. The rear can be reached via the challenging climbing wall, too. From both decks swaying, see-through net bridges offer an exhilarating climb to the mid mast desti-nation. Varied climbing and crawling trains children's cross-coordination, proprioception and spatial awareness. These life

skills are important to managing the world securely. Conquering the open, high nets builds self-confidence.

NRO549

Bow net

Physical: the interconnected bow net and ladders make a challenging climb. This supports cross coordination and major muscles. Social-Emotional: the climbers feel the movements of their peers in the net. This evokes cooperation, turn-taking and empathy. Climbing over the top beams promotes risk taking and thus sense of achievement and self-confidence.

Observation post

Physical: being up high develops spatial awareness and sense of balance. Social-**Emotional:** a destination and meeting point up high adds social interaction as well as thrill and great views.

Rock climber

Physical: supports cross coordination and leg, arm and hand strength. The hand-holds on top ease entry into platform. Social-Emotional: the inclination makes climbing feel secure, especially for younger children.

Bow platform

Social-Emotional: the roomy platform makes a fine meeting destination for children, who have embarked via varied climbers training cross coordination and risk-taking skills.

Physical: sliding develops spatial awareness and a sense of balance. Furthermore, the core muscles are trained when sitting upright going down. Social-Emotional: empathy stimulated by turn-taking.

Cognitive: the cannon set a tangible theme and thus spur dramatic play. Dramatic play supports language and communication skills.

Physical: climbing the accessible stairway is for all and supports cross coordination as well as arm and leg muscles. For young children, walking stairs and alternating feet is developed. Social-Emotional: room for active breaks and adult helpers. An inclusive space.

In-ground

All Organic Robinia products by KOMPAN are made of Robinia wood from sustainable European sources. On request it can be supplied as FSC® Certified (FSC® C004450).

The paint used for coloured components is water based environmental friendly with excellent UV resistance. The paint is in compliance with EN 71 Part 3.

The Robinia products are designed with a KOMPAN colour concept with a number of different standard colours. The wood can also be supplied as untreated or with brown painted with a pigment that maintains the wood colour.

Item no. NRO549-1021

Installation Information			
Max. fall height	0 cm		
Safety surfacing area	0.0 m ²		
Total installation time	93.0		
Excavation volume	27.88 m³		
Concrete volume	13.60 m³		
Footing depth (standard)	100 cm		
Shipment weight	8,464 kg		

Warranty Information	
Corocord rope	10 years
Membrane	2 years
Robinia wood	15 years
Spare parts guaranteed	10 years
Stainless steel slide	10 years

Corocord 16mm ropes of UV-stabilized PES rope strands with inner steel cable reinforcement. The polyester yarn is made from +95% post-consumer materials and is inductively melted onto each strand. The ropes are highly wear-and vandalism-resistant and can be replaced at site if needed.

The stainless steel slides with one piece slide bed are made of high quality stainless steel AISI 304.

Corocord membranes consist of friction-proof rubberized material of conveyor belt quality with excellent UV resistance. Tested and compliant with REACH requirements for PAH. Embedded is a four-layered armouring made of woven polyester. The armouring and the two surface layers result in a total thickness of 7.5 mm.

Cradle to Gate A1-A3	Total CO ₂ CO ₂ e/kg		Recycled materials
	kg CO₂e	kg CO₂e/kg	%
NRO549-1021	0.00	0.00	0.00

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO_2 calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
