

Tower & Slide, Fireman's Pole & Net

NRO1006

KOMPAN
Let's play

Item no. NRO1006-1001

General Product Information

| | |
|-----------------------|---|
| Dimensions LxWxH | 363x528x360 cm |
| Age group | 4+ |
| Play capacity (users) | 9 |
| Color options |  |

The Tower & Slide, Fireman's Pole & Net appeals immensely to children. With its climb and slide variations, children will try it out repeatedly, training cardio and muscles as they loop the balance beam, net, fireman's pole and slide. The entry access points are graded so that children have a chance to scale up the challenge. The climbing and balancing trains

children's balance and coordination. These are important for securely navigating your body in different space. The cross-modal training when climbing is fundamental for the ability to read. One on the platform, the slide is an all time favourite. When toddlers slide, they train their balance and spatial awareness. These skills are important for understanding the body in

space, speed and distance.

Tower & Slide, Fireman's Pole & Net

NRO1006

All Organic Robinia products by KOMPAN are made of Robinia wood from sustainable European sources. On request it can be supplied as FSC® Certified (FSC® C004450).

Ropes of UV-stabilized PES rope strands with inner steel cable reinforcement. The polyester yarn is made of +95% Post-consumer materials and is inductively melted onto each strand to obtain excellent wear and tear resistance.

The stainless-steel slides with one-piece slide bed are made of high-quality stainless-steel AISI 304.

Item no. NRO1006-1001

Installation Information

| | |
|--------------------------|---------------------|
| Max. fall height | 170 cm |
| Safety surfacing area | 35.0 m ² |
| Total installation time | 11.3 |
| Excavation volume | 2.07 m ³ |
| Concrete volume | 0.32 m ³ |
| Footing depth (standard) | 103 cm |
| Shipment weight | 589 kg |
| Anchoring options | In-ground ✓ |

Slide interface panel of 19mm EcoCore™. EcoCore™ is a highly durable, eco-friendly material, which is not only recyclable after use, but is also made of +95% recycled post-consumer material from e.g., food packing waste in both core and colorful outer layer.

The stainless-steel activities are made of high-quality stainless steel. The steel is cleaned by a total pickling process after manufacturing to ensure a smooth and clean gliding surfaces.

The Robinia wood can be supplied as untreated raw wood, painted with a brown coloured transparent pigment that maintains the golden wood colour or in a coloured version where selected components are painted in different colours.

Sustainability Data

NRO1006

| Cradle to Gate A1-A3 | Total CO ₂ emission | CO ₂ e/kg | Recycled materials |
|----------------------|--------------------------------|-------------------------|--------------------|
| | kg CO ₂ e | kg CO ₂ e/kg | % |
| NRO1006-1001 | 359.70 | 0.83 | 10.20 |

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
