The Tractor is an appealing attractor for dramatic and physical play for younger children. The rich variety of climb, crawl and slide activities attracts and ensures physical activity that trains important motor skills and major muscles. On the platform, a gear shift, a steering wheel and side mirrors add to the feeling of driving a beastly big Tractor. On

ground level, multiple varied climbs up and crawls through holes to under the platform ensures ample encouragement to climb and crawl. This trains cross-body coordination which builds body confidence and ultimately stimulate the cross-modal perception which supports to for instance reading skills. Dramatic play is the favorite play type for younger

children. Apart from building an understanding of the world, dramatic play also trains language and communication skills intensely. In the case of the Tractor, story telling themes of farming, driving and building will be put to play.

Gear shift

Social-Emotional: cooperation, turn-taking, sharing. **Cognitive:** suggests a theme and supports dramatic play, which stimulates languages skills.

Sand scoops panel

Physical: hand eye coordination and push-pull movements. **Social-Emotional:** invites cooperation due to the two-sidedness and provides for parallel play. **Cognitive:** logical thinking: cause and effect understanding when running scoops in grooves or shifting materials from scoop to scoop. **Creative:** shifting scoops, creating new scoop positions.

Turning wheel

Cognitive: the manipulative item stimulates cause and effect understanding.

Slide

Physical: sliding develops spatial awareness and a sense of balance. Furthermore, the core muscles are trained when sitting upright going down. **Social-Emotional:** empathy stimulated by turn-taking. **Cognitive:** young children develop their understanding of space, speed and distances when sliding down quickly.

Side mirror

Cognitive: understanding of individuality and self expression. Stimulates dramatic play and thus language and communication development.

Weather panel

Social-Emotional: spurs group play and conversations with its two-sidedness. **Cognitive:** naming, reporting, recognizing and contextualizing the weather symbols teaches children life skills such as sequencing and time of year. **Creative:** the pointer can be placed in different directions to create stories or change main point of attraction.

Rock climber

Physical: supports cross coordination and leg, arm and hand strength. **Social-Emotional:** the inclination makes climbing feel secure, especially for younger children.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Play systems

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Play systems" represented by item no.: PCM200321-0950.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
