

Suspension Trainer Compact

FAZ107

KOMPAN
Let's play

Suspension training is very effective because it simultaneously increases strength, balance, flexibility and core stability. With 49 exercises the suspension trainer is one of the most versatile pieces of exercise equipment on which all muscle groups can be trained in a functional and effective way, no matter what the fitness level of the user is. With the suspension

trainer everyone can workout at their own level due to the scalable resistance. The intensity of each exercise can be determined by adjusting the body position to add more or less resistance.

Suspension Trainer Compact

FAZ107

The uniquely designed handles are made of PUR and a reinforced aluminium frame that ensures a strong but light design. The ergonomically shaped handles guarantee a good and pleasant grip for all users.

KOMPAN's suspension trainer has independently anchored handles with a 40cm distance between the ropes. This gives the user plenty of workout space between the ropes and makes the suspension trainer extremely easy and comfortable to use.

Ropes are made of UV-stabilised PA with inner steel cable reinforcement. The rope is induction treated in order to create a strong connection between steel and rope, which leads to excellent wear resistance.
