PCM103621

Themed play just got even better with this great ship. Play activities on the lower and upper decks allow everyone to play together. The manipulative and interactive components like the binoculars, wheels and music panel ensure endless hours of creative and imaginative play. These components support children's social/emotional and cognitive/creative

development. Additionally, these tactile activities subsonsciously support children's fine motor skills in a fun and entertaining way. Other activities make sure their physical development is supported too, for example during a roleplay scenario of man aboard using the fireman's pole or walk the line with the track ride.

#### Xylophone music panel Social-Emotional: invites social interaction and co-creation for more children, on both sides. Cognitive: understanding of cause and effect when striking tubes and creating sound. Creative: the creation of different intensity and tonality stimulates creative skills.

Physical: tactile stimulation supports sensory skills, when children explore the characteristics of the materials. Social-Emotional: social interaction between inside and outside, supporting turn-taking and cooperation. Cognitive: understanding of object permanence playing peek-a-boo. Dramatic play support, encouraging language skills. Creative: leaving a mark, deciding how to place curtains.

Crawl-through hole

Physical: the hole allows for climbing and

awareness. Social-Emotional: cooperation

and turn-taking when passing one another. Cognitive: understanding space, shape and measures when seeing if the body can fit

crawling through, developing cross coordination, proprioception and spatial

Cognitive: the binoculars promote dramatic play, a great trainer of language and communication skills. Creative: the binoculars can be moved around. Looking through them gives a new perspective on the world.

Megaphone

Social-Emotional: inspires communication

sound evokes curiosity and stimulates an

understanding of cause and effect.

and turn-taking skills. Cognitive: distortion of

#### Accessible stairway

Physical: climbing the accessible stairway is for all and supports cross coordination as well as arm and leg muscles. Social-Emotional: room for active breaks and adult helpers. An inclusive space.

#### Rope ladder

Physical: climbing the ladder supports cross coordination and trains leg and arm muscles.

through the hole.

Panels of 19mm EcoCore™. EcoCore™ is a

highly durable, eco-friendly material, which is not only recyclable after use but also consists of

a core produced from 100% recycled material.

The slides can be chosen in different materials and colours. Options include straight, or curved moulded PE slides in yellow or grey colour or a full stainless steel option which is a more vandalism proof solutions.

Nets and ropes are made of UV-stabilised PA with inner steel cable reinforcement. The rope is induction treated to create a strong connection between steel and rope, which leads to durable weather resistance.

KOMPAN Play Systems can be customised to meet individual client needs and site considerations. Visit the products www.KOMPAN.com.au to view our panels, decks, post, slides, and other play activities options which are all durable solutions for any outdoor environment.

## **Sustainability Data**

PCM103621

Cradle to Gate A1-A3	Total CO₂ emission	CO₂e/kg	Recycled materials
	kg CO₂e	kg CO₂e/kg	%
PCM103621-0901	2,165.46	2.11	64.47

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

### Verification of CO<sub>2</sub> calculation of: Play systems

Data version no. 2023-10-05

The  $\mathrm{CO_2}$  calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Play systems" represented by item no.: PCM200321-0950.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
