

# Triple Balance Beam

NRO889

Item no.	
General Product Information	
Dimensions LxWxH	24'8"x7'7"x1'3"
Age group	5 - 12
Play capacity (users)	6
Color options	 

The Triple Balance Beam is a great playground classic that attracts children again and again. It can function as a playground centerpiece, helping to connect activities. It can also function as a point for a break, providing seating for children sharing, or parents or caregivers in need of a point from which to observe play. When children balance across

the Triple Balance Beam, they train their equilibrium immensely. The sense of balance is a fundamental motor skill that is basic for the development of all other skills. The sense of balance for instance makes it possible for children to sit still and concentrate, so the fun of physical play supports this important part of child development. The spaciousness also

allows for substantial social interaction and cooperative play.

All Organic Robinia products by KOMPAN are made of Robinia wood from sustainable European sources. On request it can be supplied as FSC® Certified (FSC® C004450).

The Robinia wood can be supplied as untreated raw wood or painted with a brown colored transparent pigment that maintains the golden wood color of the wood.

Item no.	
Installation Information	
Max. fall height	1'3"
Safety surfacing area	465ft <sup>2</sup>
Total installation time	
Excavation volume	
Concrete volume	
Footing depth (standard)	
Shipment weight	
Anchoring options	In-ground ✓
Warranty Information	
Robinia Wood	10 Years
Spare Parts Availability	10 Years
Stainless steel components	Lifetime

Elevated activities 0	Accessible elevated activities	Accessible ground level activities	Accessible ground level play types
Present	0	1	1
Required	0	1	1

# Sustainability Data

NRO889

Cradle to Gate A1-A3	Total CO <sub>2</sub> emission	CO <sub>2</sub> e/kg	Recycled materials
	kg CO <sub>2</sub> e	kg CO <sub>2</sub> e/kg	%

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

## Verification of CO<sub>2</sub> calculation of: Nature play

Data version no. 2023-10-05

The CO<sub>2</sub> calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
