A set of three jump pods in the height of 10cm, 30 cm and 60 cm. Through combining different heights and arranging them with varying distance to have multiple difficulty levels, they are a great addition to any obstacle course. The material of the pods is carefully chosen to provide a good grip, even when it is wet.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
