

# Large Hexagonal Spacenet

COR36501

Item no. COR365011-1101	
<b>General Product Information</b>	
Dimensions LxWxH	1111x963x589 cm
Age group	5+
Play capacity (users)	49
Colour options	

The Large Hexagonal Spacenet appeals immensely to children's need for adventure. With its 5m climb to the top, it is bound to attract children time and time again. The ropes sway gently, adding to the development of important motor skills such as cross-coordination and sense of space. These are important in for example judging distances

when navigating traffic. The muscles are put to work, and the legs, arms, and core are trained when climbing and mastering one level after the next. The challenge of climbing this high trains children's risk-taking skills as well as their social skills, such as instance empathy: with many children climbing the swaying rungs, consideration of others is needed. The Large

Hexagonal Spacenet is a great meeting point. Thanks to the transparency they can communicate, compare and play across the net.

# Large Hexagonal Spacenet

COR36501

## Highest rungs

**Physical:** spatial awareness is supported, arm muscles when holding tight. **Social-Emotional:** children develop courage, self-confidence, consideration and turn-taking, all important life skills.

## Big meshes

**Physical:** the big meshes allow for climbing and crawling, supporting proprioception, cross coordination and spatial awareness. **Social-Emotional:** allow more children being seated together, sharing.

## Mast

**Physical:** the slightly swaying mast stimulates children's muscles and motor skills when they hold tight climbing the net. **Social-Emotional:** children develop courage and self-regulation when climbing up high. This positively affects self-confidence.

## Transparency

**Social-Emotional:** the transparency makes cooperation and communication possible, which are essential life skills for children to learn.

## Bouncy net meshes

**Physical:** agility, balance and coordination as well as spatial awareness are supported when bouncing, climbing and sitting in the net. **Social-Emotional:** the bouncing, swaying net appeals to empathy and cooperation. **Cognitive:** physical memory, logical thinking, concentration.

COR36501

Corocord ropes with 19mm+ diameter are known as a 'Hercules' rope type which is formed from galvanised six-stranded steel wires. Each strand is tightly wrapped with PES yarn, which is melted onto each individual strand. Ropes are highly wear-and vandalism-resistant and can be easily replaced on-site if needed.

Designed to allow the typical function of rope play structures to move Corocord 'S' clamps are used as universal connections in Corocord products. 8mm stainless steel rods with rounded edges are pressed around the ropes with a special hydraulic press, making them the ideal connector. Our clamps are safe, durable and vandalism-proof.

Corocord membranes consist of friction-proof rubberised material of conveyor belt quality with excellent UV resistance. Tested and compliant with REACH requirements for PAH. Embedded is a four-layered armouring made of woven polyester. The armouring and the two surface layers result in a total thickness of 7.5 mm.

In the centre of the net is the mast which is made of high-quality seamless steel and creates an oscillating support structure which is statically favourable and equalises the oscillations in the net. The masts are hot-dip galvanised as standard, with the design option of additional powder coating.

You can choose between seven rope colours to create a customised solution for your playscape. Colours options range from elegant and expressive black or natural and toned-down hemp colour to attractive and eye-catching signal colours.

For installations using rubber surfacing the turnbuckle protectors are to be ordered separately.

Item no. COR365011-1101

### Installation Information

Max. fall height	165 cm
Safety surfacing area	118.8 m <sup>2</sup>
Total installation time	19.9
Excavation volume	11.23 m <sup>3</sup>
Concrete volume	7.15 m <sup>3</sup>
Footing depth (standard)	110 cm
Shipment weight	752 kg
Anchoring options	In-ground ✓

### Warranty Information

Corocord (Hercules) Rope	10 years
Membrane	2 years
S-Clamps	10 years
Spare Parts Guarantee	10 years
Steel post HDG	Lifetime

**AS**  
**4685**  
compliant

# Sustainability Data

COR36501

Cradle to Gate A1-A3	Total CO <sub>2</sub> emission	CO <sub>2</sub> e/kg	Recycled materials
	kg CO <sub>2</sub> e	kg CO <sub>2</sub> e/kg	%
<b>COR365011-1101</b>	1,721.33	3.11	55.92

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

## Verification of CO<sub>2</sub> calculation of: Corocord

Data version no. 2023-10-05

The CO<sub>2</sub> calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Corocord" represented by item no.: COR314011-1101.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
