

Snail Springer

NRO115

The Snail with its chunky, rocking body attracts toddlers for shorter or longer rides, again and again. With its appealing shape and tactile variations including steel hand hold, rubber foot support, and smooth, wooden body, it supports toddlers understanding of material characteristics such as weight, smoothness, temperature, and flexibility. The soothing,

rocking movement of the Snail also trains the sense of balance and special awareness which is crucial for body confidence, e.g. in avoiding falling and an essential tool for the ability to sit still and concentrate. The Snail springer ensures hours of fun and learning, it is much more than just a fun ride.

Item no. NRO115-0401	
General Product Information	
Dimensions LxWxH	73x48x68 cm
Age group	3+
Play capacity (users)	1
Colour options	 

Snail Springer

NRO115

Handhold

Physical: opens more hold positions and ensures good grip, necessary for rocking intensely which trains hand and arm muscles.

Rocking spring

Physical: response to movements adds to spatial awareness and sense of balance which are fundamental motor skills.

Cognitive: trains the understanding of cause and effect: when I move my body, the spring responds with movement.

Foot support

Physical: the footrest supports intensive rocking, which stimulates the senses of balance and space, fundamental for managing the world securely.

Theme

Cognitive: suggests a theme and supports dramatic play, which stimulates language and communication skills.

Snail Springer

NRO115

All organic Robinia products by KOMPAN are made of Robinia wood which is sourced from sustainable plantation farms. On request it can be supplied as FSC® Certified (FSC® C004450).

The paint used for coloured components is water based, which is environmentally friendly and has excellent UV resistance. The paint complies with Australian Standards.

Handles and footrests are made of high-quality stainless steel and equipped with moulded on PUR handholds and footsteps. The PUR footrests are designed with grooves to make the surface slip-resistant.

KOMPAN's springs are manufactured from high-quality spring steel. The springs are cleaned by phosphating before being painted with epoxy primer and polyester powder coating. The springs are fixed by unique anti-pinch fittings for maximum safety and longevity.

The Robinia wood can be supplied as untreated raw wood or painted with a brown coloured transparent pigment that maintains the golden wood colour of the wood.

Item no. NRO115-0401	
Installation Information	
Max. fall height	60 cm
Safety surfacing area	7.8 m²
Total installation time	2.2 hours
Excavation volume	0.17 m³
Concrete volume	0.00 m³
Footing depth (standard)	42 cm
Shipment weight	59 kg
Anchoring options	In-ground ✓ Surface ✓
Warranty Information	
PUR Components	10 years
Robinia Wood	15 years
Spare Parts Guarantee	10 years
Springs	5 years
Stainless Steel Components	Lifetime

Sustainability Data

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
NRO115-0401	103.79	1.89	32.32

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
