

Double Tower with Fireman's Pole

KPL2013

This classic play unit with the vibrant colours attracts children again and again. The tall climbing wall, the slide, the open net bridge and the tall climbing net all create a play variety that makes children want to come back again and again. The play activities, apart from being great fun, train the child's motor skills as well as muscles. When doing somersaults on the

somersault bar, the child trains its sense of space and balance, both mandatory when building up life skills such as judging distances. The see-through net bridge adds thrill, as the child can sense the height while passing. The big net has smaller as well as bigger meshes, facilitating climbing up and climbing through. The slide provides a fun exit, and the fireman's

pole provides a dare devil ride. All in all, it's play with a purpose. Enjoyment, fun and build-up of life skills, all in one.

Item no. KPL201311-0901	
General Product Information	
Dimensions LxWxH	326x383x307 cm
Age group	2+
Play capacity (users)	15
Color options	

Double Tower with Fireman's Pole

KPL2013

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of material produced from +95% recycled post consumer material from food packing waste.

The main tower posts are available in two types of material: European pine wood posts, pressure impregnated Class 3 with Tanalith E3475 according to EN335 (Equivalent to NTR Class AB). Aluminum post t=2mm with anodized surface treatment. Base material EN AW-6060 T66.

Floors and panel activities are available in two types of material: Waterproof plywood decks thickness 21.5mm from pine and alder wood with anti-slip film on both sides. High Pressure Laminate HPL thickness 17.8mm with slip resistant surface texture according to EN 438-6.

Item no. KPL201311-0901

Installation Information

Max. fall height	118 cm
Safety surfacing area	32.7 m²
Total installation time	12.1 hours
Excavation volume	1.54 m³
Concrete volume	0.00 m³
Footing depth (standard)	90 cm
Shipment weight	395 kg
Anchoring options	In-ground ✓ Surface ✓

Warranty Information

Aluminum	15 years
EcoCore HDPE	Lifetime
Pinewood	10 years
Ropes & nets	10 years
Spare parts guaranteed	10 years

The large hollow components are made of 100% recyclable PE. The roof displayed is moulded in one piece with minimum 5,5mm wall thickness to ensure high durability in all climates around the world.

The slides can be chosen in six different colors and three materials: Straight or curved one-piece molded PE slides, made from 33% recycled post-consumer materials in different colours. Combined EcoCore™ sides and stainless-steel. Full stainless steel in one piece design for more vandalism proof solutions.

The main posts are equipped with hot dip galvanised steel footings. The steel footings elevates the posts 20mm from ground level to avoid contact with surfacing material.

Sustainability Data

KPL2013

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
KPL201311-0901	585.51	1.91	27.33

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Play systems

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Play systems" represented by item no.: PCM200321-0950.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
