Wow! This is the perfect structure for the classic themes of Shop and Kitchen. There is so much to do in such a small space! Children will play for hours, time and time again, with the varied and interesting play activities. These benefit the children's physical, social-emotional, cognitive, and creative development. Numerous play features motivate

social play and support child development: The con-veyor belt and oven transport materials through, encouraging social interaction. The Shop side has tangible themes: microphone, switch and money desk. The Kitchen side has oven and cooker. The pushing, pulling and investigation of the numerous play items stimulate the child's logical thinking skills. The

rich themes in- spire dramatic play, which is phenomenal for language development: a main factor for learning, friendships and life success.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
