Ultimate play thrills await in this sky high play unit. The main attraction is the huge, rotating slide. Looping the steps and floors to make it up to that hugely thrilling slide down again makes for the initial 15 minutes of active play time, a KOMPAN Play Institute observation states. However, the ground floor does offer a quieter play panel with Maze Ants for individual

or small group play for a break after the wild slide. Making their way up to the massive slide, the children pass various soft feel speed-balls, rollers and noodels, suspended vertically for exploration, tag and hide-and-seek games. Play shape steps make obstacles for wild races through the floors and also offer a fine seat. On the top floor, a play shape step is placed in the

roof to make a further obstacle for speedy runs. The various floors offer a break and gather point as well as a view of the surroundings, thanks to the see-through outer panels. The sightlines that are secure here create good sightlines and make the stay feel secure for children and care-givers alike.
