

Caterpillar

MSC5406

This fun Caterpillar is loaded with tactile toddler play that will keep young children engaged for long playtimes. There are surprises and delights on all sides of the thrilling Caterpillar enhancing their overall development as they play. Children are fascinated to notice how the shapes and spheres move along the lines, moving the pieces with their hands will help

encourage motor coordination and fine motor skills. The rattle sound of the yellow spheres running in their groove is a sensory dimension that young children will experiment with again and again. This cause-and-effect action stimulates the toddlers' logical thinking skills and cognition. There is a "two of each"-approach to activities, across the Caterpillar.

This 360 design supports peer interactions, adding social-emotional development to the play benefits.

Item no. MSC540600-3417P	
General Product Information	
Dimensions LxWxH	118x14x92 cm
Age group	6m+
Play capacity (users)	3
Colour options	

Turning sphere

Cognitive: stimulates a child's understanding of cause and effect when the rattle inside the sphere is turned. The smooth surface adds tactile variation. **Creative:** the rattle sound adds a creative element to play.

Play spheres with toothed grooves

Social-Emotional: can be played from both sides, encouraging cooperation. **Cognitive:** cause and effect understanding. **Creative:** leave a mark and place the spheres at different positions.

Themed element

Cognitive: set a tangible theme and thus spur dramatic play. Dramatic play is a great trainer of language skills.

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco-friendly material, which is not only recyclable after use but also consists of a core produced from 100% recycled material.

The steel surfaces are hot-dip galvanised inside and outside with lead-free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

Play spheres are made from PP, which is durable and impact resistance.

Play activities like the turning ball are made of injection moulded high-quality UV-stabilised nylon (PA6).

Item no. MSC540600-3417P

Installation Information

Max. fall height	0 cm
Safety surfacing area	10.8 m²
Total installation time	2.9 hours
Excavation volume	0.11 m³
Concrete volume	0.00 m³
Footing depth (standard)	60 cm
Shipment weight	28 kg
Anchoring options	In-ground ✓ Surface ✓

Warranty Information

EcoCore HDPE	Lifetime
Galvanised Steel	Lifetime
Movable Parts	2 years
Spare Parts Guarantee	10 years

Sustainability Data

MSC5406

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
MSC540600-3417P	67.13	2.74	65.95

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Themed play systems

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Themed play systems" represented by item no.: MSC641100-3717P.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
