

Butterfly Seesaw

NRO108

The Butterfly Seesaw takes the classic seesawing to new social heights: thanks to the springs, unequal numbers can play together. Children can even play this alone. That allows for varied play, a feature that will attract children again and again, for shorter or longer try-outs. The sense of space and rhythm and leg and arm strength of children is trained

when they rock and seesaw. The two varied surfaces, a flat horizontal and a rounded horizontal, allows for more body positions: sitting, kneeling, lying. This accommodates a wider span of users, both age and ability-wise. Rocking trains the senses of balance and space. These are both crucial for body confidence, e.g. in avoiding falling. Doing this

more children together develops important social-emotional skills such as turn-taking and cooperation.

Item no. NRO108-0401	
General Product Information	
Dimensions LxWxH	160x140x70 cm
Age group	3+
Play capacity (users)	4
Colour options	

Butterfly Seesaw

Handhold

Physical: the vertical handgrips ensure a firm grip at different heights, necessary for rocking intensely. This trains hand and arm muscles.

Rocking spring

Physical: response to movements adds to spatial awareness and sense of balance. These are fundamental motor skills that help the child's ability to sit still on a chair which takes a good sense of balance. **Cognitive:** trains the understanding of cause and effect: when I move my body, the spring responds with movement.

Rocking together

Social-Emotional: the possibility of rocking two together trains cooperation skills. Consideration of others when rocking.

All Organic Robinia products by KOMPAN are made of Robinia wood from sustainable European sources. On request it can be supplied as FSC® Certified (FSC® C004450).

KOMPAN Springs are made of high quality spring steel according to EN10270. The springs are cleaned by phosphating before they are painted with an epoxy primer and a polyester powder coating as top finish. The springs are fixed by unique anti pinch fittings for maximum safety and long lifetime.

The Robinia wood can be supplied as untreated raw wood or painted with a brown coloured transparent pigment that maintains the golden wood colour of the wood.

Item no. NRO108-0401	
Installation Information	
Max. fall height	94 cm
Safety surfacing area	9.5 m ²
Total installation time	4.0 hours
Excavation volume	0.32 m ³
Concrete volume	0.00 m ³
Footing depth (standard)	41 cm
Shipment weight	127 kg
Anchoring options	In-ground ✓ Surface ✓
Warranty Information	
Handle	10 years
Robinia wood	15 years
Spare parts guaranteed	10 years
Springs	5 years
Stainless steel components	Lifetime

Sustainability Data

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
NRO108-0401	212.99	1.94	16.23

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
