

# Double Springer

NRO103

Item no. NRO103-0401

**General Product Information**

Dimensions LxWxH	20x96x61 cm
Age group	3+
Play capacity (users)	2
Colour options	 

The Double Springer is a dense, spring seesaw that attracts children for fun, social rocking again and again. The density of the Double Springer makes cooperation intense. The spring ensures hours of fun, and the soothing, rocking movement of the Double Springer invites play, also in un-equal numbers of children. The rocking movement trains the

senses of balance and space. These are both crucial for body confidence, e.g. in avoiding falling. A well-developed sense of balance is fundamental for the ability to sit still and concentrate. The rhythmic movement takes cooperation and stimulates social-emotional skills such as empathy and turn-taking. For toddlers and young children, the double

springer is a fine entry to wilder, bigger seesaws. But not least, it is a fine entry to active, fun parallel and social play.

# Double Springer

NRO103

## Handhold

**Physical:** opens more hold positions and ensures good grip, necessary for rocking intensely which trains hand and arm muscles.

## Rocking spring

**Physical:** response to movements adds to spatial awareness and sense of balance which are fundamental motor skills.

**Cognitive:** trains the understanding of cause and effect: when I move my body, the spring responds with movement.

## Rocking together

**Social-Emotional:** the possibility of rocking two together trains cooperation skills and consideration of others.

NRO103

All organic Robinia products by KOMPAN are made of Robinia wood which is sourced from sustainable plantation farms. On request it can be supplied as FSC® Certified (FSC® C004450).

KOMPAN's springs are manufactured from high-quality spring steel. The springs are cleaned by phosphating before being painted with epoxy primer and polyester powder coating. The springs are fixed by unique anti-pinch fittings for maximum safety and longevity.

Robinia products are available in three different wood treatment options; untreated Robinia wood or brown painted with a pigment that maintains the wood colour and coloured version with paint of selected components.

Item no. NRO103-0401	
Installation Information	
Max. fall height	65 cm
Safety surfacing area	6.7 m²
Total installation time	2.1
Excavation volume	0.16 m³
Concrete volume	0.00 m³
Footing depth (standard)	41 cm
Shipment weight	65 kg
Anchoring options	In-ground ✓ Surface ✓
Warranty Information	
Robinia Wood	15 years
Spare Parts Guarantee	10 years
Springs	5 years
Stainless Steel Components	Lifetime

# Sustainability Data

Cradle to Gate A1-A3	Total CO <sub>2</sub> emission	CO <sub>2</sub> e/kg	Recycled materials
	kg CO <sub>2</sub> e	kg CO <sub>2</sub> e/kg	%
NRO103-0401	84.48	1.54	15.69

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

### Verification of CO<sub>2</sub> calculation of: Nature play

Data version no. 2023-10-05

The CO<sub>2</sub> calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025  
Verified by:

Julie Marie Vejsgaard Larsen, LCA & EPD Consultant

Verification based on report: Validation of CO<sub>2</sub> calculation of 9 categories of Kompan product line, version 1.0, prepared by: Bureau Veritas HSE, Denmark: Julie M. V. Larsen.
