The Fairy-tale Seesaw motivates children to join in play, rocking together. The spacious design and sturdy back and foot support allow for many children of all abilities to play together. The risk seekers can stand on the middle platform securely, sensing the movement of the others. The spacious platform also allows for socialising, and children lying or

sitting. There is room enough for caregivers, too. The seats at the end are big enough for older children as well as adults. The fun thrill of rocking, individually, or in small or in big groups, will make children return for more. Rocking on the fairy-tale seesaw enhances the children's muscles and motor skills, their balance, and coordination. The spaciousness

of the seesaw supports the development of social-emotional skills, e.g. cooperation, consideration, and turn-taking. Toddlers experience cause-and-effect understanding.

Theme

Cognitive: suggests a theme and supports dramatic play, which stimulates language and communication skills.

Double seating option

Social-Emotional: rocking together supports cooperation skills, and physical contact with others is great for children's wellbeing, measurable in lower cortisol levels.

Rocking spring

Physical: response to movements adds to spatial awareness and sense of balance which are fundamental motor skills.

Cognitive: trains the understanding of cause and effect: when I move my body, the spring responds with movement.

Foot support

Physical: the footrest supports intensive rocking, which stimulates the senses of balance and space, fundamental for managing the world securely.

Handhold

Physical: opens more hold positions and ensures good grip, necessary for rocking intensely which trains hand and arm muscles.

Center platform

Physical: supports agility, balance and coordination, using leg and core muscles, building bone density when jumping. Facilitate sitting and lying, allows for users with disabilities. **Social-Emotional:** provides an inclusive space for gathering and for caregivers assisting. Teamwork and socialising when rocking together.

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco-friendly material, which is not only recyclable after use but also consists of a core produced from 100% recycled material.

KOMPAN's springs are manufactured from high-quality spring steel. The springs are cleaned by phosphating before being painted with epoxy primer and polyester powder coating. The springs are fixed by unique anti-pinch fittings for maximum safety and longevity.

The springs are fixed by unique anti-pinch fittings for maximum safety and longevity.

Handles are made of polypropylene PP with excellent impact strength and are suitable for extreme weather climates.

The steel surfaces are hot-dip galvanised inside and outside with lead-free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

Platform and seats are made of HPL with a thickness of 17,8mm with a very high wearing strength and a unique KOMPAN non-skid surface texture.
