Super Combi 1, Supervised

FSW251

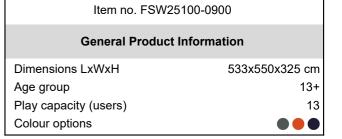

The Super Combi 1 Gated has the same options as the standard Super Combi 1 but also has a connector for battle rope, a connector for a boxing bag, and a station for barbell exercises. This item is intended for supervised or gated areas such as sports or fitness clubs, as these loose items do not satisfy safety standards for public

places.

Supervised products are only for areas that are gated or fenced-off, like fitness clubs with supervision or gated communities.

Super Combi 1, Supervised

FSW251

Post are made of Ø101.6 x 2mm, pregalvanized carbon steel and powder coated, a great protection to all conditions.

Sustainability Data

FSW251

| Cradle to Gate A1-A3 | Total CO ₂ emission | CO₂e/kg | Recycled materials |
|----------------------|--------------------------------|------------|--------------------|
| | kg CO₂e | kg CO₂e/kg | % |
| FSW25100-0900 | 948.55 | 2.41 | 56.70 |

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Kompan A/S

C.F. Tietgens Boulevard 32C DK-5220 Odense SØ Denmark

Verification of CO₂ calculation of: Fitness

Data version no. 2023-10-05

The CO_2 calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Fitness" represented by item no.: FAZ10100-0900.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
