

Oasis Sand House with Desk And Crane

NRO528

The Oasis sand house with desk and crane combines the fun and role playing space of the hut with the explorative sand play bench. The sand play has an innovative chain scoop that can swing left and right, as well as be pulled up and down. When the chain is let go, the sand scoop stays in its position. The negotiation and cooperation to get sand to and from the sand

table develops social and logical thinking skills. The sand table has a sieve and tube as well, where children watch and play all around this incredible play item. The Oasis House is made of beautiful Robinia timber, providing an organic structure that can either blend into or stand out from your surrounds. Children can touch and feel the timber, observing how

nature inspiration interacts with the built environment.

Item no. NRO528-1021	
General Product Information	
Dimensions LxWxH	253x353x287 cm
Age group	2+
Play capacity (users)	17
Colour options	  

Oasis Sand House with Desk And Crane

NRO528

Theme

Cognitive: suggests a theme and supports dramatic play, which stimulates language and communication skills.

Sand crane

Physical: hoisting the basket up and down trains arm muscles and dexterity. **Social-Emotional:** cooperating with others e.g. receiving the bucket trains cooperation skills. **Cognitive:** understanding the mechanism of the chains hoisting buckets up and down supports logical thinking skills. **Creative:** working with moveable play items that can leave a mark supports the child's creativity.

Slope

Physical: inclined crawling or walking up or down develops the sense of balance and cross coordination. **Social-Emotional:** the inclination makes climbing feel secure, especially for younger children.

Window

Social-Emotional: invites interaction between sides and cooperative play.

Side desk

Social-Emotional: fine meeting place and a space creator. Sharing and cooperation from both sides to create a social scenario that supports communication and cooperation.

Sand wheel

Cognitive: the turning sand wheel stimulates cause and effect understanding.

Sand desk with funnel

Social-Emotional: children can gather and store materials, cooperate and take a break together. **Cognitive:** sand can be shifted through the funnel, for understanding of cause and effect and object permanence: that materials don't vanish but run through at the other end.

Oasis Sand House with Desk And Crane

NRO528

All organic Robinia products by KOMPAN are made of Robinia wood which is sourced from sustainable plantation farms. On request it can be supplied as FSC® Certified (FSC® C004450).

The paint used for coloured components is water based, which is environmentally friendly and has excellent UV resistance. The paint complies with Australian Standards.

The Robinia products come in a number of standard colour options. The wood can also be supplied as untreated or with brown painted with a pigment that maintains the wood colour.

The product/activities are preassembled from the factory to ensure all safety requirements are considered.

Item no. NRO528-1021	
Installation Information	
Max. fall height	48 cm
Safety surfacing area	27.0 m²
Total installation time	20.7
Excavation volume	0.72 m³
Concrete volume	0.10 m³
Footing depth (standard)	100 cm
Shipment weight	1,058 kg
Anchoring options	In-ground ✓ Surface ✓
Warranty Information	
Robinia Wood	15 years
Ropes & Nets	10 years
Spare Parts Guarantee	10 years
Stainless Steel Components	Lifetime
Stainless Steel Components	Lifetime

Sustainability Data

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
NRO528-1021	308.77	0.37	3.50

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
