

Pirate Ship, X-Large

NRO549

The stunning XL Pirate Ship with accessible stairway attracts children from afar. The density of varied fun play and climbing opportunities on ground level as well as elevated level is awe-inspiring. The different climbing options, great gathering points, views and fun slides make for a magnet for children's play, again and again. The routes to the decks vary. The rear one has

an accessible stairway and watchpoints on deck. The rear can be reached via the challenging climbing wall, too. From both decks swaying, see-through net bridges offer an exhilarating climb to the mid mast destination. Varied climbing and crawling trains children's cross-coordination, proprioception and spatial awareness. These life skills are important to

managing the world securely. Conquering the open, high nets builds self-confidence.

Bow net

Physical: the interconnected bow net and ladders make a challenging climb. This supports cross coordination and major muscles. **Social-Emotional:** the climbers feel the movements of their peers in the net. This evokes cooperation, turn-taking and empathy. Climbing over the top beams promotes risk taking and thus sense of achievement and self-confidence.

Observation post

Physical: being up high develops spatial awareness and sense of balance. **Social-Emotional:** a destination and meeting point up high adds social interaction as well as thrill and great views.

Rock climber

Physical: supports cross coordination and leg, arm and hand strength. The handholds on top ease entry into platform. **Social-Emotional:** the incline makes climbing feel safer, especially for younger children.

Bow platform

Social-Emotional: the roomy platform makes a fine meeting destination for children, who have embarked via multiple climbers training cross coordination and risk-taking skills.

Slide

Physical: sliding develops spatial awareness and a sense of balance. Furthermore, the core muscles are trained when sitting upright going down. **Social-Emotional:** empathy stimulated by turn-taking.

Cannon

Cognitive: the cannon sets a tangible theme and spurs dramatic play. Dramatic play supports language and communication skills.

Accessible stairway

Physical: climbing the accessible stairway is for all and supports cross coordination as well as arm and leg muscles. For young children, walking stairs and alternating feet is developed. **Social-Emotional:** room for active breaks and adult helpers. An inclusive space.

Corocord 16mm ropes are special 'Hercules'-type with galvanized four-stranded steel wires and a steel wire core. Each strand is tightly wrapped with PES yarn, which is melted onto each individual strand. The ropes are highly wear-and vandalism-resistant and can be replaced at site if needed.

The stainless steel slides with one piece slide bed are made of high quality stainless steel AISI 304.

Corocord membranes consist of friction-proof rubberized material of conveyor belt quality with excellent UV resistance. Tested and compliant with REACH requirements for PAH. Embedded is a four-layered armoring made of woven polyester. The armoring and the two surface layers result in a total thickness of 7.5 mm.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
