WOW! The Ocean Giant L's sky-high climb-slide-meet features attract children hugely. The Giant offers a unique variety of speedy sliding, gentle swaying and not least challenging climbing activities. All these are in a see-through tower, promoting thrill and social interaction. All this ensures vigorous play, over and over. The slides are main attractions. The

open and closed slide and the challenging banister bars offer each their fast ride. Severe fun, stimulating social-emotional skills such as self-regulation and empathy. The varied climbing activities add choice: the tall, transparent climbs add thrill. Climbing here trains the cross-coordination, the sense of space and the condition. On ground level the

swaying hammock, low climbing walls and rope access with pods add opportunities for all to play, socialize and participate in the fun.
