## **Mont Blanc**

PCE210321

Item no. PCE210321-0901				
General Product Information				
Dimensions LxWxH	898x849x550 cm			
Age group	6+			
Play capacity (users)	36			
Color options				

Mont Blanc looks impressive and offers varied, challenging play activities for school age children, encouraging them to stay for a long time, and return over and over again. A rich variation of climb up, balance over and slide down activities are eternally attractive and train muscles as well as important motor skills. The sturdy, bouncy rope climber, the swaying shell and the wobbly bridge, all offer the physical challenges and responses that children love. These events also develop the child's sense of balance and space, as well as their positioning awareness. These are all fundamental motor skills needed for managing life skills like traffic safety. The rich variation of climb up events lead to a stomach-turning slide and banister bars, which is great for training safe risk taking. The many additional ground level activities offer play for everyone. The transparent design invites all in.

## **Mont Blanc**

PCE210321

The Curved ELEMENTS panels are moulded of UV stabilised recyclable PE using 33% postconsumer recycled material. With multiple options for in-build play features that also ensures a strong panel solution. Straight panels are made of KOMPAN 19mm HDPE EcoCore™ which is a highly durable, ecofriendly and recyclable material made from +95% PCM.

The climbing elements displayed are moulded from 33% post-consumer recycled materials in one piece, with a minimum 5mm wall thickness. The climbing elements are made of recyclable PE which has a high impact resistance across a wide temperature span which ensures vandal resistance in all locations.

The ELEMENTS roofs are made of recyclable PE made from 33% post consumer recycled materials with a minimum wall thickness of 5 mm to ensure high durability in all climates around the world. The steel pipes are hot dip galvanised inside and outside for maximum durability.

Item no. PCE210321-0901				
Installation Information				
Max. fall height	273	3 cm		
Safety surfacing area	87.2	2 m²		
Total installation time	:	38.9		
Excavation volume	1.4	1 m³		
Concrete volume	0.4	5 m³		
Footing depth (standard)	90	) cm		
Shipment weight	1,41	7 kg		
Anchoring options	Surface	~		
	In-ground	~		

ELEMENTS ropes has six-stranded steel wires and a steel wire core. Each strand is tightly wrapped with PES yarn, which is made from +95% post consumer materials. The yarn is then melted onto each individual strand making the ropes highly wear- and vandalism-resistant.

The main posts are made of high quality pregalvanized steel with powder coated top finish. Post tops are closed with caps of UV stabilized nylon (PA6). The grey colored molded decks are made of 75% post-consumer waste PP material with a non-skid pattern and texture surface. All decks are supported by unique designed low-carbon aluminum profiles with multiple attachment options.

ELEMENTS rubber membranes are conveyer belt made of layers of rubber mixed of natural rubber and SBR rubber, and embedded with layers of armouring made of woven PE and PA. The thickness 8mm ensures high durability in any environment.

## **Sustainability Data**

PCE210321

Cradle to Gate A1-A3	Total CO <sub>2</sub> emission	CO₂e/kg	Recycled materials
	kg CO₂e	kg CO₂e/kg	%
PCE210321-0901	3,305.00	2.97	44.90

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Kompan A/S C.F. Tietgens Boulevard 32C DK-5220 Odense SØ Denmark

## Data version no. 2023-10-05

The  $CO_2$  calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Play systems" represented by item no.: PCM200321-0950.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
