Percussion Music Panel

NRO602

General Product Information

Dimensions LxWxH 170x46x78 cm
Age group 1+
Play capacity (users) 3
Color options

The Robinia Percussion Music Panel is an immense play invitation for children: the variation in drumming sounds and the tonal response to movements attracting children again and again. The drums can be played alone or together. There is room for many users to congregate around the differently textured and sounding drums. This encourages

social interaction and co-creation when drumming rhythms and singing along. It also stimulates cognition and creativity as children create rules and rhythms together or individually. The percussion drum additionally has different sounding divisions. For older children and adults this creates variations in tonality and sound patterns. Drumming and

creating rhythms on the drums stimulate the child's ability to understand cause and effect and leave a mark on their play, both important for cognitive as well as creative skills.

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO_2 calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
