| General Product Information | |
| Dimensions LxWxH | 217x107x32 cm |
| Age group | 2+ |
| Play capacity (users) | 2 |
| Colour options |   |

The Water Lilies Balance Posts appeal to children and encourage physical make believe games with rules, such as 'The Ground is Lava' game. The Water Lilies invite jumping or balancing from one to the next and can also be used as individual seats and are perfect for group conversation. Thanks to their width the Water Lilies support less confident children.

When balancing from water lily to water lily, children train their proprioception and sense of balance which are fundamental skills for confidently managing the body in its surroundings. This is important for instance when navigating street traffic safely. Crossing the Water Lilies with friends trains turn-taking and negotiation which are important social-

emotional skills that are basic for the ability to form friendships and relate to peers.

Waterlilies Balance Post, 5 Pcs

All organic Robinia products by KOMPAN are made of Robinia wood which is sourced from sustainable plantation farms. On request it can be supplied as FSC® Certified (FSC® C004450).

Balance post of 3/4" EcoCore™ which is a highly durable, eco-friendly material, which is not only recyclable after use, but also consists of a core produced from 100% recycled material.

The Robinia wood can be supplied as untreated raw wood or painted with a brown coloured transparent pigment that maintains the golden wood colour of the wood.

| Cradle to Gate A1-A3 | Total CO ₂ emission | CO ₂ e/kg | Recycled materials |
|----------------------|--------------------------------|-------------------------|--------------------|
| | kg CO ₂ e | kg CO ₂ e/kg | % |
| NRO820-0601 | 25.43 | 0.32 | 16.85 |

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
