

# Blazer

ELE400021

The whimsical shapes and colours of the Blazer evoke children's curiosity: they want to try it out. The vibrant colours are consciously chosen to support beginning rules understanding of the 3+ year olds: they can choose their colour. The springs make it possible rocking individually or in uneven numbers, too. The platform in the middle

supports lying and standing. The platform can be used to start games or as a meeting point. Rocking on the Blazer, especially when standing on the middle platform, trains the child's sense of space and balance. These are crucial as a basis of navigating the world securely. Good mastery of space and balance is the basis of for instance being able to sit still.

When the sense of balance is not developed, children cannot focus on anything else. So the sense of balance needs to be automatised in the early years. The Blazer is a fun, playful way to do that.

Item no. ELE400021-3218	
General Product Information	
Dimensions LxWxH	228x200x79 cm
Age group	3+
Play capacity (users)	6
Colour options

ELE400021

## Center platform with groove

**Physical:** train balance and space when standing, using leg and core muscles. Jumping off strengthens bone density. Afford sitting and lying, allowing for users with disabilities. **Social-Emotional:** provides an inclusive space, for gathering and for care givers assisting. Teamwork and socializing when rocking together. **Cognitive:** rules games can occur standing or sitting inside and outside groove.

## Color variation

**Cognitive:** supports rules understanding and rules games: children will find reasons for choosing the one or the other color.

## Wacky body

**Physical:** hollow seat and sturdy foot and hand support allows for intensity in riding, training arm and leg muscles as well as the senses of space and balance.

## Triple wacky bodies

**Physical:** allow for wild rides with others, supporting sense of balance and space as well as leg and arm muscles. **Social-Emotional:** cooperation when coordinating the movements of the three pods. **Cognitive:** understanding of cause and effect when coordinating movements with others.

## Spring base

**Physical:** rocking promotes sense of balance and space, both important in for navigating the body confidently in space. **Social-Emotional:** consideration of others when rocking.

ELE400021

KOMPAN Springs are made of high quality spring steel according to EN10270. The springs are cleaned by phosphating before they are painted with an epoxy primer and a polyester powder coating as top finish. The springs are fixed by unique anti pinch fittings for maximum safety and long lifetime.

Handles and footrests are made with a moulded PP insert and an outer layer of soft TPV rubber. The handles and footrests are attached to the pipe with a galvanised steel inlay to ensure strength and durability.

The middle plate is made of HPL with a thickness of 17.8mm. It has a very high wearing strength and a unique KOMPAN non skid surface texture.

Item no. ELE400021-3218

## Installation Information

Max. fall height	100 cm
Safety surfacing area	14.3 m²
Total installation time	4.3 hours
Excavation volume	0.66 m³
Concrete volume	0.00 m³
Footing depth (standard)	42 cm
Shipment weight	199 kg
Anchoring options	In-ground ✓ Surface ✓

## Warranty Information

Hollow PE parts	10 years
HPL platform	15 years
Spare parts guaranteed	10 years
Springs	5 years
Stainless steel components	Lifetime

The steel surfaces are hot dip galvanised inside and outside with lead free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

The seat is made with recycable PE from 33% post consumer materials and moulded in one piece with a minimum 5mm wall thickness. PE has high impact resistance across a wide temperature span which ensures vandal resistance in all locations.

KOMPAN GreenLine versions are designed with ultimate environmentally friendly materials with lowest possible CO2e emission factor such as EcoCore™ panels of +95% post consumer recycled ocean waste.

# Sustainability Data

ELE400021

Cradle to Gate A1-A3	Total CO <sub>2</sub> emission	CO <sub>2</sub> e/kg	Recycled materials
	kg CO <sub>2</sub> e	kg CO <sub>2</sub> e/kg	%
ELE400021-3218	366.02	2.66	36.36

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

## Verification of CO<sub>2</sub> calculation of: Freestanding play equipment

Data version no. 2023-10-05

The CO<sub>2</sub> calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Freestanding play equipment" represented by item no.: GXY916012-3417.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
