

BLOQX 5

BLX4105

Item no. BLX410501-3717

General Product Information

Dimensions LxWxH	595x246x300 cm
Age group	8+
Play capacity (users)	28
Colour options	

Three groundlevel attached modules and two flying BLOQX create an exciting climbing landscape. The bouldering routes are both long and challenging, especially every time the climber has to overcome the climb under a flying module. Only true climbing experts can master to reach the top module from a ground position. This asks for a tough cocktail of

balance, coordination and the top tuned use of physical strength. The clustered modules provide a good number of meeting places from where the strategy for the next climbing trip can be planned.

Climbing grips grid

Cognitive: logical thinking when figuring out routes and memorizing position of grips you can't see when climbing.

Multiple climbing blocks

Physical: develop sense of balance, proprioception and spatial awareness. Heavy duty training of arm, leg and core muscles when climbing longer. More points for strengthening bone density when jumping down. **Social-Emotional:** cooperation, consideration, turn-taking, risk-taking, self-confidence when self-regulating and helping others. **Cognitive:** logical thinking when figuring out longer routes.

Inclined panels

Physical: sense of balance when seated for breaks, and proprioception. Bone density when jumping down. Bone density is built up in youth to last the rest of your life. **Social-Emotional:** meeting points from where to help other children. Turn-taking and helping out are common activities on the BLOQX™.

Meeting point

Physical: sense of balance when seated for breaks on an inclined surface. **Social-Emotional:** socializing, turn-taking, consideration of others.

Climbing grips

Physical: dexterity and cross-body coordination, sense of space, all important in navigating the body in space. Pushing, pulling and using fingers, arms, legs and core, strengthen the muscles.

BLOQX 5

BLX4105

High pressure moulded PP climbing panels with excellent impact strength and usable within a large temperature span. The panel are made from 75% post-consumer recycled materials in bright colors. Teal color is made from 75% ocean waste. The outside surface has an integrated pattern and surface texture that is dirt repellent.

Die-cast corner brackets of high quality lead free aluminium. The corner brackets have nicely rounded edges and countersunk stainless steel screws. For sunny environments the corner bracket can be supplied with optional powder coating which reduced the heat absorption of the brackets.

Climbing Grips are KOMPAN customized design, based on professionally designed climbing grips for optimal play value. The base material is polyester. There are two colours of climbing grips (green & black) and three on each panel. They are rotation secured by a steel pin.

The cubes are supported by a unique designed footing system that secures the correct positioning of the cubes.

To ensure maximum safety in all weather conditions a non-skid safety plate is located when climbing down from the elevated cube. Further, a number of the top corner brackets are covered with soft PUR.

Greenline Bloqx products are built of molded PP panels which consist of 75% recycled post consumer ocean waste and 25% virgin material. The panels are designed with a unique pattern that provides a non-skid surface texture. GreenLine ensures the lowest possible CO2e emission factor.

Item no. BLX410501-3717

Installation Information

Max. fall height	300 cm
Safety surfacing area	50.7 m ²
Total installation time	34.4
Excavation volume	1.85 m ³
Concrete volume	0.50 m ³
Footing depth (standard)	90 cm
Shipment weight	805 kg
Anchoring options	In-ground ✓ Surface ✓

Warranty Information

Climbing grips	10 years
Climbing panels (PP)	10 years
Corner brackets	10 years
Hot dip galvanised steel	Lifetime
Spare parts guaranteed	10 years

Sustainability Data

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
BLX410501-3717	1,045.90	1.85	62.20

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Challengers & Climbers

Data version no. 20213-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Challenger & Climbers" represented by item no.: GXY941032-3717.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
