Amazing! The Tick-Tock appeals immensely to infants and toddlers with its whimsical shape and vibrant colours. It is lovely for the smallest children who want to join the playground play. The tactile elements of the Tick-Tock inspire exploration. Young children will discover that the Tick-Tock responds to their actions: when they handle the manipulative wheel, gear and

play sphere, there is a possibility to alter positions. This supports cause-and-effect understanding and logical thinking in the infants. Toddlers who are just beginning to play pretend will delight in the imagining they are driving a vehicle. This will add topic of conversation with adults and peers, which will support verbal interaction. Fascinating, infant

sized and infant inspired play.
