3-Seat Steel Frame H:2.5m

KSW923

Item no. KSW923-0910		
General Product Information		
Dimensions LxWxH	528x184x255 cm	
Age group	2+	
Play capacity (users)	-	
Color options		

Of all the play activities, swinging is a definite favorite: children love it, as it can be done both individually and together. This swing set supports the play joy of doing the same thing at the same time, featuring two similar swing seats. The seats are shaped with a slight curve in the middle, to facilitate the secure seat position of a wide age span. A great place to play, for all ages, for hours and days. Swinging apart from being great fun, trains the children's ABC: agility, balance and coordination as well as their spatial awareness. These motor skills are crucial to being able to judge distances and navigate, traffic safely. Swings allows for standing sitting, laying – and not least jumping off. Apart from the motor skills training, this trains the arm, leg and core muscles. The jumping off builds bone density – the majority of which is built up during the first years of life.

3-Seat Steel Frame H:2.5m

KSW923

Item no. KSW923-0910		
Installation Information		
Total installation time	6.6	
Excavation volume	1.68 m ³	
Concrete volume	0.00 m ³	
Footing depth (standard)	90 cm	
Shipment weight	280 kg	
Anchoring options	In-ground 🗸

Verification based on report: Validation of CO, calculation of 9 categories of Kompan product line, version 1.0, prepared by: Bureau Veritas HSE, Denmark: Julie M. V. Larsen.

Publication date: 30. October 2023

BUREAU VERITAS

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
