

Magic Cottage

NRC100301

Wow, it's a magic cottage! The organic shapes and fun play activities attract children to come play, repeatedly. The classic play activities span fun, varied accesses with rappelling activities and the big meshed net. They each offer a different play opportunity, and the net is a nice place to climb or hang. Looping the accesses and the slide is not only great fun. It

also trains children's balance and cross-coordination. These motor skills are fundamental for movement ability. They influence both children's physical and social-emotional development: training muscles when climbing, training balance when sliding, and gaining confidence in daring and succeeding.

Item no. NRC100301-1021	
General Product Information	
Dimensions LxWxH	483x377x463 cm
Age group	2+
Play capacity (users)	9
Colour options	 

Magic Cottage

NRC100301

Inclined climbing wall

Physical: develops children's cross-coordination, eye-hand coordination and muscle strength when climbing. **Social-Emotional:** learning about turn-taking and cooperation.

Climbing net

Physical: children develop cross-body coordination and muscle strength when climbing. The big mesh supports proprioception and spatial awareness. **Social-Emotional:** the big meshes allow for more children to sit together and talk.

Supportive handholds

Physical: handhold provides good grip for less confident climbers. Trains upper body muscles. **Social-Emotional:** allows for a range of physical abilities to enter independently and securely, play for all.

Slide

Physical: develops spatial awareness, sense of balance and trains core muscles when sitting upright going down. **Social-Emotional:** empathy stimulated by turn-taking.

NRC100301

All organic Robinia products by KOMPAN are made of Robinia wood which is sourced from sustainable plantation farms. On request it can be supplied as FSC® Certified (FSC® C004450).

Transparent brown pigmented and colored parts, are coated with water-based paint and pigment that is environmentally friendly and with excellent UV resistance. The paint and pigment is in compliance with EN 71 Part 3.

The products are preassembled from the factory to ensure all safety requirements are considered. Please note that each Robinia fantasy structure will have its own unique appearance because of the natural shape of the individual wood posts.

There are multiple footing options for all products: Surface anchoring with steel footings and expansion bolts, or wood in-ground or steel in-ground footings.

Activities are made of high-quality stainless steel which is cleaned by a total pickling process after manufacturing to ensure a smooth and clean gliding surface.

The slides can be chosen in six different colors and three materials: Straight or curved one-piece molded PE slides, made from 33% recycled post-consumer materials in different colours. Combined EcoCore™ sides and stainless-steel. Full stainless steel in one piece design for more vandalism proof solutions.

Item no. NRC100301-1021	
Installation Information	
Max. fall height	122 cm
Safety surfacing area	39.2 m²
Total installation time	22.1
Excavation volume	1.82 m³
Concrete volume	1.10 m³
Footing depth (standard)	100 cm
Shipment weight	1,291 kg
Anchoring options	In-ground ✓
Warranty Information	
Corocord (Hercules) Rope	10 years
Hollow PE parts	10 years
Robinia Wood	15 years
Spare Parts Guarantee	10 years
Stainless Steel Components	Lifetime

Sustainability Data

NRC100301

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
NRC100301-1021	310.10	0.28	3.22

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NR0409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025

Verified by:

Julie Marie Vejsgaard Larsen, LCA & EPD Consultant

Verification based on report: Validation of CO₂ calculation of 9 categories of Kompan product line, version 1.0, prepared by: Bureau Veritas HSE, Denmark: Julie M. V. Larsen.
