placed in the crawl-through openings. These support important physical as well as spatial skills. The 360 design also supports social interactions through window and door spaces as well as through peek-a-boo holes. The cooperation going on here supports the development of social-emotional skills. An open ended sensory element such as the

ale

megaphone stimulates the under-standing of cause and effect, stimulating cognitive development.

Theme Cognitive: suggests a theme and supports dramatic play, which stimulates language and communication skills.

#### Desk Social-Emotional: fine meeting place and a

space creator. Sharing and cooperation from both sides create a social scenario that supports communication and cooperation.

Bench Social-Emotional: gathering, cooperating or taking a break from play - all train social skills.

Megaphone

**Social-Emotional:** inspires communication and turn-taking skills. **Cognitive:** distortion of sound evokes curiosity and stimulates an understanding of cause and effect.

#### Crawl-through hole

Physical: the hole allows for climbing and crawling through, developing cross coordination, proprioception and spatial awareness. Social-Emotional: cooperation and turn-taking when passing one another. Cognitive: understanding space, shape and measures when seeing if the body can fit through the hole.
