Street workout is a physical activity that symbolizes the freedom of movement and encourages socializing. It is a combination of athletics, calisthenics and other sports, and mostly performed in the public space. The incline press is specifically designed for beginners that are having a hard time with push ups and pull ups. The side handles offer

different positions and heights to place hands or feet, allowing the user to decrease and increase own bodyweight while performing exercises like push ups. The top bar makes it possible to do many more exercises, from pull ups where you train the upper body to knee raises that work your abdominal muscles.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
