

Tall Castle, Large

NRO430

Item no. NRO430-1222

General Product Information

Dimensions LxWxH	2196x1478x1040 cm
Age group	6+
Play capacity (users)	60
Color options	  

The phenomenal Tall Castle is a medieval village of continued play, for daredevils as well as for peaceful players, again and again. With its impressive distribution of high-paced, multi-level play options, the Tall Castle allows for abilities and the whole family to have fun in play. The ground level and first floor offer greatly varied rest and physical play events,

with a curly climber, slide, and fireman's pole; all fine trainers of children's motor skills and muscles. For elevated level, daring internal rope climbs take the children to the tops and the two hilariously speedy slides. See-through cage climbers, sides and bridges add to the thrill on the way up. The reward of uniquely thrilling climbs and slides makes it worth the

journey. The children learn to overcome fears and judge their abilities in a playful, thrilling, and safe way.

Tall Castle, Large

NRO430

All Organic Robinia products by KOMPAN are made of Robinia wood from sustainable European sources. On request it can be supplied as FSC® Certified (FSC® C004450).

The paint used for coloured components is water based environmental friendly with excellent UV resistance. The paint is in compliance with EN 71 Part 3.

The Robinia products are designed with a KOMPAN colour concept with a number of different standard colours. The wood can also be supplied as untreated or with brown painted with a pigment that maintains the wood colour.

Ropes of UV-stabilized PES rope strands with inner steel cable reinforcement. The polyester yarn is made from +95% post-consumer materials and is inductively melted onto each strand.

Curved and straight stainless-steel tunnel slides are supported by multiple steel rods to a center steel post. The tunnel slides are designed with perfect curve and inclination for a playful ride.

The wire frame tunnel is made of hot dip galvanised high quality steel. Corocord 16mm ropes of UV-stabilized PES rope strands with inner steel cable reinforcement. The polyester yarn is made from +95% post-consumer materials and is inductively melted onto each strand. The ropes are highly wear-and vandalism-resistant and can be replaced at site if needed.

Item no. NRO430-1222

Installation Information

Max. fall height	300 cm
Safety surfacing area	204.8 m²
Total installation time	572.1 hours
Excavation volume	0.00 m³
Concrete volume	0.00 m³
Footing depth (standard)	120 cm
Shipment weight	21,643 kg
Anchoring options	In-ground ✓

Warranty Information

Hot dip galvanised steel	Lifetime
Robinia wood	15 years
Ropes & nets	10 years
Spare parts guaranteed	10 years
Stainless steel slide	10 years

**EN
1176**
compliant

Sustainability Data

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
NRO430-1222	24,716.00	1.28	12.10

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
